ELDER CONSERVATORIA

The first term of the Elder Conservatorium has begun, and the following classes will resume as under:—The University choral class will meet on Tuesday evening at 7.15; Mr. Bevan will meet new students at 7.30. The following works will be immediately put into rehearsal:—Mendelssohn's "Hymn of praise" and selections from Handel's "Jephtha." The ladies' part singing class will reassemble to-day at 1.45; the evening class meeting on Wednesday next at 7.30. Miss Hack will meet new students to-day at 1 o'clock, and on Wednesday evening at 7 o'clock. The works for rehearsal are "An ode to spring," written for the class by Mr. Bryceson Treharne, "The Blessed Damozel," by Debussy, and choruses by Volbach, Coleridge, Taylor, and Corder. The French and Italian classes, under Mr. Leodochowski, have already reassembled, and the elocution class, under Mr. Edward Reeves, will meet this afternoon at 4 o'clock.

University students are invited by notice in our advertising columns to meet the professors in the different faculties. The new term will begin on March 10, and the lectures will begin on March 16.

UNIVERSITY OF ADELAIDE

SUPPLEMENTARY EXAMINATION FOR THE DEGREES OF BACHELOR OF MEDICINE AND BACHELOR OF SURGERY, MARCH, 1908.

PASS LIST.

—First Year.—

Biology.—Adolf Oswald Boer.
Physics.—Keith McEwin, Cyril Frederick Pitcher, Wilfred David Rosengarten (thus completing the first year).

—Second Year.—

Anatomy.—Eustace Couper Black, Edmund Britten Jones, Leonard Green Muirhead.
Physiology.—Thomas Hugh Donnelly.
Chemistry.—Thomas Hugh Donnelly (thus completing the second year).

—Third Year.—

Surgery.—John James O'Grady (thus completing the third year).

—Fourth Year.—

Pathology.—John Robb Muirhead (thus completing the fourth year).

SUPPLEMENTARY EXAMINATION FOR THE B.Sc. DEGREE, March, 1908.

PASS LIST.

Compulsory Physics.—Wilfred David Rosengarten.
Compulsory Chemistry.—Stanley Simpson Addison.

Register 14th March 1908

UNIVERSITY OF ADELAIDE

EXAMINATION FOR THE DEGREE OF BACHELOR OF LAWS.—MARCH, 1908.

PASS LIST.

(In order of merit.)

—Property I.—

None passed.

—Property II.—

Third Class.—Edwin Baxter Cox and William Henderson (equal).

—Law of Contracts.—

Third Class.—Donald Arthur Roberts and Spencer Gordon Goldsworthy.

—Law of Wrongs.—

Second Class.—Sydney John Warren.

Third Class.—John Hubert Hawdon Davison, Charles Norman Mackenzie, and Stuart Douglas Ronald.

—Latin.—

Third Class.—Sydney John Warren and Samuel Richard Heseltine.

UNIVERSITY OF ADELAIDE

PUBLIC EXAMINATIONS BOARD.

SENIOR EXAMINATION, MARCH, 1908.

(The following list does not include candidates in Western Australia.)

1, English literature; 3, Greek; 4, Latin; 5, French; 6, German; 7, arithmetic and algebra; 8, geometry; 10, physics; 11 inorganic chemistry.

Stanley Simpson Addison, 5, private study; William John Barbary, 4, University Training College; Maude Gladys Batchelor, 4, University Training College; Richard Francis Canney, 4, Pupil Teachers' School; Ida Jane Carter, 4, University Training College; Robert John Miller Clucas, 7, 8, Mr. D. H. Holbidge; Patrick Cockburn, 5, Mr. G. G. Newman; Catherine Anna Donachy, 4, University Training College; Harold Elsdon Flint, 4, University Training College; Paul Charles Albert Forbachon, 5, Mr. G. G. Newman; Joseph Leslie Glasson, 6, Mr. Drews; John Gluis, 3, University Training College; Margaret Green, 4, University Training College; Arthur Robert Hilton, 3, Mr. G. G. Newman; Herbert Clifton Hosking, 3, private study; Leonard Joseph Bernard Hurley, 4, University Training College; Sarah Elizabeth Jackson, 4, private tuition; Lionel Harry Jefferies, 7, private study; Max Frederick Joyner, 4, 8, Mrs. Dorsch; William Holland Lang, 5, Prince Alfred College; Arthur Leslie Merrotsy, 4, University Training College; Thomas Pacey, 7, 8, Mr. G. G. Newman; Harold John Penny, 1, Mrs. Dorsch; Kathleen Naomi Powell, 4, University Training College; George Donald Reid, 8, private tuition; Valesca Leonore Olive Reimann, 3, Mrs. Dorsch; Henry Charles Cadell Rennie, 5, Queen's School; Leslie Gemmel Tassie, 1, Mr. G. G. Newman; Arthur Danks Venn, 4, Mr. B. P. Wait; Mary Anna Waters, 4, University Training College; Arthur Evan Williams, 8, Kyre College; Frederick Howard Wood, 8, 10, 11, private tuition; Laurence Underwood Bridgland, 1, 6, private tuition.

Register March 17th

The following interesting communication has been received by Mr. E. H. Lock (secretary to the Adelaide Field Naturalists' Society) from Mr. Douglas Mawson, of this city, who is a member of the Shackleton exploring expedition:—"Cape Royds, Antarctica, February 14. Dear Mr. Lock—On leaving Adelaide my preparations were so hurried that I omitted to formally notify the committee of my absence. . . . This part of the world teems with interest for the naturalist, and especially for me, to whom everything pertaining to such a frigid climate is so novel. Whales, seals, and penguins are very numerous. In the sea are also hidden abundant fish—medusae and pteropods. Hutbuilding is now in full swing with 18 hours' work every 24 hours, so that the scientific departments have hardly yet commenced operations."

Register March 20th

UNIVERSITY REGULATIONS.

A meeting of the Senate of the University will be held on Wednesday afternoon. The business includes consideration of statutes relating to the Tinline Scholarship, founded by Mr. G. J. R. Murray; the extension of the period of eligibility to compete for the Joseph Fisher medal and lecture in commerce to a five years' course instead of four years as at present; the provision of a diploma in commerce instead of the advanced commercial certificate; and an amendment to the regulation for the Bachelor of Medicine and Bachelor of Surgery degrees, providing that the names of successful third term candidates shall be arranged in order of merit in all three classes, instead of in the first only.

THE TINLINE SCHOLARSHIP.

The conditions for the Tinline Scholarship have been embodied in a proposed statute made by the University Council, which will be considered at the Senate meeting on Wednesday next. The scholarship is the gift of Mr. G. J. R. Murray, K.C., a member of the Council of the University, who gave £1,000 for its founding in memory of the family of his mother. The suggested statute is as follows:—"There shall be two scholarships tenable for two years each, to be called 'The Tinline Scholarships,' one of which shall be awarded every year on the examinations in history for the ordinary degree of Bachelor of Arts, provided that if the examiners shall not consider any candidate worthy to receive the scholarship, it shall lapse for that year. Each scholar shall prepare an original thesis on some subject of Imperial or colonial history to be approved of by the Faculty of Arts before March 31 following the date of the award of his scholarship, and shall present such thesis before August 30 in the following year. Each scholar shall receive £30 per annum, subject to the following conditions, the first payment to be made at the end of September in the year following the award, and the second payment at the end of September in the next year, provided his thesis is judged to be satisfactory. The scholars shall be in all respects subject to the statutes and regulations for the time being of the University, and, if their conduct is not satisfactory, they may be deprived of their scholarships by the Council at any time. This statute may be varied from time to time, but the title and purpose of the scholarships shall not be changed."

Register March 20th

IN THE ANTARCTIC.

The Sydney correspondent of The Melbourne Argus telegraphed on Tuesday:—"Professor David, of Sydney University, in a letter to his wife from the Antarctic regions, says:—"Up to the present the trip has greatly benefited my health. The way one's appetite has improved, and the vast quantities of material that one eats, and seems really to need, in this cold climate, is simply marvellous. I suppose it is chiefly used in keeping up the body temperature. Penguin soup is delicious, and I like seal meat very much. Before the sun leaves altogether we hope to work out some of the volcanic and glacial geology of Mount Erebus, at the foot of which we are encamped. Everywhere there is evidence of far vaster glaciation in a former time than at present. All round us there is a very fine field for study. Then there is the boring of the great ice barrier, in order to study its structure and internal temperature. This should keep us going all the winter, and we can be making rock slices and determining our rocks preliminarily, and writing up such parts of our geological memoir as can be written here. Then, when spring comes, we are to journey over to the western mountains, where there are some of the most magnificent, if not quite the most magnificent, glaciers in the world. And then there is a possibility, though remote, of getting to the magnetic pole. To us here there will be such an immense amount to do, and so little time in which to do it, that winter is sure to pass pretty quickly, and spring and summer will bring all their own weight of work with them, so time will pass quickly for me. I am standing the cold all right, but several members of the expedition have got frost-bitten. I have only got slightly frost-bitten on the finger tips."
