

Ref. 6-12-29

HARVESTING THE GOLDEN GRAIN: A busy scene at the Waite Agricultural Research Institute, Urrbrae, yesterday. Loading up stooks from a prolific crop of oats on one of the experimental plots.

Ref. 10-12-29

ADDITIONS AT URRBRAE RESEARCH INSTITUTE: The new plant culture houses and insectary at the Waite Research Institute, which were opened by Mr. R. B. McCann yesterday.

Ref. 10-12-29

VISITORS AT URRBRAE YESTERDAY were keenly interested in the many plants which are members of the staff arranging exhibits for inspection.
