ADELAIDE VISITORS to the Science Congress at the Melbourne University waiting to attend their respective sections. From left: Mrs. Kerr Grant, Miss Patricia Mawson, Lady Mawson, and Sir Douglas Mawson (who is president).

Advertiser 19.1.35

AUSTRALASIAN scientists are assembled in Melbourne for the greatest annual congress of two decades. In this group (from left) are—Sir George Julius, Sir David Rivett (president-elect), and Professor A. E. V. Richardson, of Adelaide, who are examining a sample of a recently-isolated mineral contained in a desiccator, Dr. A. B. Walkom and Mr. F. R. Pitt, who are seen inspecting an exhibit of fluorescent minerals which are excited by ultra-violet rays.
