

AN EMPIRICAL STUDY OF PRICE FORMATION ON
THE SYDNEY WOOL FUTURES MARKET

A thesis submitted in partial fulfilment
of the requirements for the degree of
Master of Agricultural Science

by

BENJAMIN FRANCIS HUNT, B.Ag.Sc., B.Ec.

Faculty of Economics
University of Adelaide
May, 1974.

TABLE OF CONTENTS

	Page No.
List of Tables	(iv)
List of Figures	(vi)
Acknowledgements	(viii)
Chapter 1 INTRODUCTION	1
1.1 Aim of the Study	1
1.2 The Development of Futures Markets	2
1.3 The Sydney Greasy Wool Futures Exchange	8
1.4 Transactor Types	11
Chapter 2 THE RANDOM WALK MODEL	14
2.1 Theory of the Random Walk	14
2.2 Modifications of the Random Walk	17
2.3 The Effect of Market Structure on Price Changes	20
2.4 The Random Walk Theory and the Spot-Futures Price Complex	25
2.5 Previous Research on the Random Walk Model	26
Chapter 3 DATA	31
3.1 Construction of a Continuous Series	31
3.2 Data Series Used in the Study	33
3.3 Data Transformation	35
Chapter 4 DISTRIBUTION OF FUTURES PRICE CHANGES	37
4.1 Preamble	37
4.2 The Theory of Normal Price Changes	38
4.3 Empirical Distributions	41
4.4 Normality of Empirical Distributions	49
4.5 Alternative Distribution Hypotheses	57
4.6 Granger's Transform	65
4.7 Praetz's Rescaled t_n Distribution	73
4.8 Conclusions	77
Chapter 5 INDEPENDENCE OF PRICE CHANGES	79
5.1 Preamble	79
5.2 Autocorrelation Function	80
5.3 Analysis of Runs	87
5.4 Spectral Analysis	98

	Page No.
Chapter 5 (Contd.)	
5.5 Indices of Cyclical Variation	128
5.6 Implications of Futures Price Cycles	133
5.7 Filter Analysis	135
5.8 Concluding Remarks	145
Chapter 6 RELATIONSHIPS BETWEEN WOOL PRICES AND WOOL FUTURES PRICES	146
6.1 Introduction	146
6.2 Theory Governing Spot-Futures Price Relations	146
6.3 Cross Spectral Analysis	151
6.4 Futures Prices as Long Range Prophets of Wool Prices	168
6.5 Concluding Remarks	171
6.6 Thesis Summary	172
Appendix I	174
Bibliography	177

LIST OF TABLES

Table	Page No.
3.1 Daily Closing Prices of All Contracts (Cents/kilo)	32
3.2 Data Series	34
4.1 Values of the Mean, \bar{y}	39
4.2 Estimated Variances, s^2	43
4.3 Values of the Standardized Measure of Skewness, β_3	45
4.4 Values of the Measure of kurtosis, β_4	47
4.5 Comparison of the Empirical Frequency Distribution with the Expected Normal Distribution for Weekly Futures Price Changes	48
4.6 Chi Squared Values, Degrees of Freedom in Parentheses	57
4.7 Values of F (Stable Mean) and χ^2 (Stable Variance); Degrees of Freedom in Parentheses	63
4.8 Chi Squared Values for Granger's Transformed Series; Degrees of Freedom in Parentheses	69
4.9 Chi Squared Values for <i>Daily Log. Open Minus Close Price Sub-Series</i>	72
4.10 Chi Squared Values of Rescaled t_n Distribution; Values of n are in Parentheses	75
5.1 Values of Serial Correlation Coefficients at Ten Lags for Sixteen Price Series	84
5.2 Values for the Expected (m) and Actual (R) Numbers of Runs and the Standardized Variable(z)	90
5.3 Runs Analysis by Signs	94
5.4 Expected and Actual Distributions of Runs of Length (i)	96
5.5 Chi Squared Values for Distribution of Runs	98
5.6 Maximum Number of Lags (m) Used in Spectral Analysis	106
5.7 Spectral Points Outside the 5% and 10% Confidence Intervals	109
5.8 Classification and Major Period Component	110
5.9 Indices of Seasonal Variation (Minus 1, Multiplied by 1000)	126
5.10 Indices of Weekly Variation (-1 x 1000)	126
5.11 Indices of Daily Variation (-1 x 1000)	133
5.12 Filter Profits (Cents/kilo)	140

LIST OF TABLES (Contd.)

Page No.

6.1	Average Coherence Values for Short Run Cycles	164
6.2	Average Coherence Values for Medium Run Cycles	164
6.3	Average Coherence Values for Long Run Cycles	164
6.4	Coherence and Phase Values (in Parentheses) for the Seasonal Cycle. Phase Values in Months	166
6.5	Coherence and Phase Values (in Parentheses) for the Weekly Cycle. Phase Values in Days	166
6.6	Coherence and Phase Values (in Parentheses) for the Daily Cycle. Phase Values are in 1/7 Day units	167
6.7	Regression of Future Wool Prices on Wool Futures Prices	170
6.8	r^2 , in Per Cent	170

LIST OF FIGURES

Figure	Page No.
1.1 A Schedule of Quoted Futures	9
4.1 Alternative Distributions of Price Changes	39
4.2 Diagrammatic Representation of a Positively Skewed Distribution	46
4.3 Diagrammatic Comparison of Observed and Normal Distributions	50
4.4 Normal Probability Plot; <i>Daily Near Futures Prices</i>	51
4.5 Normal Probability Plot; <i>Daily Four Month Futures Prices</i>	52
4.6 Normal Probability Plot; <i>Daily Twelve Month Futures Prices</i>	53
4.7 Normal Probability Plot; <i>Daily Distant Futures Prices</i>	54
4.8 Normal Plot of <i>Transaction Price Changes in May 1974 Future</i>	55
4.9 Sequential Variance: <i>Log. Price Changes of Near Future</i>	60
4.10 Variance of <i>Daily Log. Open Price Minus Log. Close Price Plotted Against Average Turnover</i>	71
5.1 Diagrammatic Representation of <i>Transaction Price Changes</i>	82
5.2 Spectrum of <i>Monthly Futures Price Changes; Untransformed Near Monthly Series</i>	107
5.3 Spectrum of <i>Monthly Physical Price Changes, 24 Lags</i>	111
5.4 Spectrum of <i>Monthly Physical Price Changes, 48 Lags</i>	113
5.5 Spectrum of <i>Monthly Futures Price Changes, Near Series</i>	115
5.6 Spectrum of <i>Monthly Futures Price Changes, Four Month Series</i>	116
5.7 Spectrum of <i>Monthly Futures Price Changes, Twelve Month Series</i>	117
5.8 Spectrum of <i>Monthly Futures Price Changes, Distant Series</i>	118

LIST OF FIGURES (Contd.)	Page No.
5.9 Spectrum of <i>Daily Futures Price Changes, Near Series</i>	119
5.10 Spectrum of <i>Daily Futures Price Changes, Twelve Month Series</i>	120
5.11 Spectrum of <i>Seven Times/Day Futures Price Changes, October Series</i>	121
5.12 Spectrum of <i>Seven Times/Day Futures Price Changes, March Series</i>	122
5.13 Spectrum of <i>Seven Times/Day Futures Price Changes, New July Series</i>	123
5.14 Spectrum of <i>Transaction Futures Price Changes, May Series</i>	124
5.15 Diagrammatic Representation of Alexander's Filter	137
5.16 Filter Gross Profits	142
5.17 Filter Net Profit for Series A, Using Buyer/Seller and Average Prices	143
5.18 Filter Net Profit for Series B, Using Buyer/Seller and Average Prices	144
6.1 Marginal Storage Costs	149
6.2 Coherence of <i>Monthly Physical and Near Futures Prices</i>	155
6.3 Phase of <i>Monthly Physical and Near Futures Prices</i>	156
6.4 Coherence of <i>Monthly Physical and Four Month Futures Prices</i>	157
6.5 Phase of <i>Monthly Physical and Four Month Futures Prices</i>	158
6.6 Coherence of <i>Monthly Physical and Twelve Month Futures Prices</i>	159
6.7 Phase of <i>Monthly Physical and Twelve Month Futures Prices</i>	160
6.8 Coherence of <i>Monthly Physical and Distant Futures Prices</i>	161
6.9 Phase of <i>Monthly Physical and Distant Futures Prices</i>	162

ACKNOWLEDGEMENTS

This thesis was supervised by Professor Frank Jarrett whose advice and encouragement was most helpful. The Sydney Greasy Wool Futures Exchange Ltd. and G.H. Michell and Sons Ltd. must also be thanked for the provision of data. I would like to acknowledge the assistance of all associates of the Economics Faculty, especially Terrie Baker, Sue Hallett, Trevor Hastings, Ian McLean, Don McLaren, Trevor Mules, Eric Russell and Ken Wright. Special thanks go to Peter Praetz whose previous work facilitated the completion of this study. I am also indebted to Joan Dutkiewicz for her typing of the thesis. Finally, I would like to thank the Australian Wool Corporation for their financial assistance.

This thesis contains no material which has been accepted for the award of any other degree or diploma in any University. Further, to the best of my knowledge and belief, it contains no material previously published or written by another person, except where due reference is made in the text of the thesis.

B. F. HUNT.
