

SOUNDS IN SPACE:
A PORTFOLIO OF SPATIAL MUSIC WORKS FOR VR

Volume 1 – Portfolio

Daniel Pitman

daniel.pitman@adelaide.edu.au

Submitted in fulfilment of the requirements for the degree of

Doctor of Philosophy

Sonic Arts

Elder Conservatorium of Music

The University of Adelaide

March 2021

Acknowledgments

I must thank my supervisors Luke Harrauld and Stephen Whittington for their time, input, and mentorship. I must also thank Seb Tomczak and Christian Haines from the EMU and Steve Cook from the education department for advice and access to unique equipment and facilities throughout my candidature.

A massive thanks for my friends and my family who have supported me through the candidature. From simple testing right through to undertaking difficult life changes with me, I have been supported endlessly by those around me and my gratitude is infinite.

In *Tulpa* I would like to acknowledge Jessica Puttmer Wong for her performance.

In *Rain* I would like to acknowledge “Rati” for the violin performance, Franc Ligertwood for providing quality equipment for the binaural recordings and technical advice in general, and Dylan Crismani for providing the just-intonation piano samples heard in the ICPA.

In *Reflections in the Eye of a Hurricane* I would like to acknowledge Henry Millar for his performances, Stephen Whittington for the composition, and Henry Brant for the hall design.

Some external assets were used in the portfolio including the cargo ship model by Gexogen (Gexogen, 2017), the head bust model by mono (Mono, 2019), and the skybox graphics by rpgwhitelock (Rpgwhitelock, 2019).

Declaration of Authorship

I certify that this work contains no material that has been accepted for the award of any other degree or diploma in my name, by any university or other tertiary institution and, to the best of my knowledge and belief, contains no material previously published or written by another person, except where due reference has been made in the text. In addition, I certify that no part of this work will, in the future, be used in a submission in my name, for any other degree or diploma in any university or other tertiary institution without the prior approval of the University of Adelaide or, where applicable, any partner institution responsible for the joint-award of this degree. I give permission for the digital version of my thesis to be made available on the web, via the University's digital research repository, the Library Search and also through web search engines, unless permission has been granted by the University to restrict access for a period of time. I acknowledge the support I have received for my research through the provision of an Australian Government Research Training Program Scholarship.

PORTFOLIO CONTENTS

1. VRSS: Virtual Reality Sound Sandbox

1.1. Application

1.1.1. VRSS21/VRSS.exe

1.2. Video Demonstrations

1.2.1. Basic Features Tour

1.2.2. Demo - Pitched Mallets

1.2.3. Demon - Array of Notes

1.2.4. Improvised Online Concert - The Obelisk Sounds

1.2.5. Improvised Online Concert – Rotations

1.3. Instructions.pdf

2. Tulpa

2.1. Video Demonstration

2.1.1. Tulpa Demonstration

2.2. Instructions.pdf

3. Rain: for VR and Violin

3.1. Score

3.1.1. Rain VR Score (folder of assets)

3.1.2. “RainSetup.vre” (for loading scene in VRSS)

3.1.3. “Rain.pptx” (Full Score)

3.1.4. “RainViolinTimed.pptx” (Violin only, time pages)

3.2. Video and Audio Recording

3.2.1. Rain - Recording (Audio)

3.2.2. Making-Of Video

3.3. Instructions.pdf

4. TheyGlow

4.1. Application

4.1.1. /TheyGlow.exe

4.2. Video Demonstrations

4.2.1. TheyGlow Demonstration Video

4.2.2. TheyGlow Unity Session Walkthrough

4.3. Instructions.pdf

5. Reflections in the Eye of a Hurricane - VR

5.1. Application

5.1.1. /RITEOAH21/RITEOAH.exe

5.2. Video and Audio Recording

5.2.1. RITEOAH Tour

5.2.2. RITEOAH Recording (Audio)

5.3. Instructions.pdf
