ARE WE SNOBS?

The Function of the Varsity.

There seem to be a most striking similarity in the minds of the conscientious student himself. The students themselves are in this trap and fall in, and consequently within the University there is no malapportionment, and naturally so suspicion and often contempt. "Our college," seems to me, is not nearly as bad as it is. 

On the other hand, the students often feel that the University is not being run as it should be, and often wonder whether the University is fulfilling its true function.

What is the University's function? What is its true nature and task? This is what seems to be the primary issue, and it is one that cannot be resolved without the involvement of the students themselves.

The University, as an institution, was created to provide a setting where students can learn and develop their potential. It is a place where knowledge is sought and shared.

The University should be a place where students are encouraged to think critically and to question the norms and values of society. It should be a place where students are exposed to a wide range of ideas and perspectives, and where they can develop their own critical thinking skills.

The function of the University is to provide a stimulating and enriching environment for learning, where students can engage with ideas and concepts, and where they can develop their own intellectual and personal potential.

In conclusion, the University's function is to provide a stimulating and enriching environment for learning, where students can engage with ideas and concepts, and where they can develop their own intellectual and personal potential.
THE LIT. AND DEB.

Something Wrong

At the last meeting of the Adelaide University Literary Debating and Dramatic Society, a report of which appears in this issue, the President said that there had been an "excessive number of "no's" and "disagreements" and that if any members had suggestions for improvements they should communicate with a member of the committee. He then, he said, be considered said, and if necessary be suspended.

We have considered these remarks, and we are of opinion that he or the committee would disregard all well-meant suggestions for improvements; and that the society would proceed in its usual dramatic activities. Indeed, it is our opinion that the dramatic activities of the Adelaide University Literary Debating and Dramatic Society have been, and are likely to be, successful in the future. We are, therefore, of the opinion that the society has done well and that it has been successful in its dramatic activities.

The Lit. and Deb. is one of the few organizations of its kind in the University. It surely should be the ideal medium for the study of literature and of the study of how to write and deliver a drama. If there is any other organization which can compete with it, we are not aware of it.

The society has a large following and is one of the most popular organizations in the University. It is also one of the most active. It is well-known for its ability to express its ideas through dramatic form. It has been successful in the past and is likely to be successful in the future.

The society is the only one of its kind in the University. It surely should be the ideal medium for the study of literature and of the study of how to write and deliver a drama. If there is any other organization which can compete with it, we are not aware of it.

WAR SCARE.

Sir, I am an anxious man. I am sure you understand what that means. I suppose you do. If you don't, you're one of those who are always saying things like "Are you a member of the Red Cross?" to people who aren't. Anyway, I have been told by a reliable source that there is going to be a war. I don't know when or where, but I know it's going to happen. I don't know how it will start, but I know it will be bad. I don't know how long it will last, but I know it will be long. I don't know how many people will die, but I know it will be many. I don't know how much it will cost, but I know it will be expensive. I don't know how it will end, but I know it will be a disaster.

In short, I am an anxious man. I am sure you understand what that means.

Yours sincerely,

THE BOMBAST.

Sir, I will now examine the war scare. I am sure you understand what that means. I suppose you do. THE BARRETT'S OF WIMPOLSE STREET.

Rodolfo Boulton's famous play has been running for nearly five years off the stage. It is not supposed to be about a war, although the action is very similar to it. The leading character is a young woman who is trying to make a living as a journalist. She is very much concerned with the fate of the world, and she is very much concerned with the fate of the world. She is very much concerned with the fate of the world. She is very much concerned with the fate of the world.

In short, I am an anxious man. I am sure you understand what that means.

Yours sincerely,
