CRISP TELLS THE NATION

What's wrong with our 'VARIETIES?'

Late night, at the invitation of the Australian Broadcasting Commissi- on, Mr. F. J. Crisp spoke to the nation about the subject, "The University Colleges." His talk was one of a series presented by the youth of Australia.

Crisp began by expressing regret at the general lack which Australian Universities had suffered by the destruction of the Variety circuit. He further expressed his hope that the Government would reconsider these proposals in the light of the recent developments.

Mr. Sidney Webb, who was present, said, "It is important that the Variety circuit should be preserved, for it is the only institution which can provide a healthy outlet for the entertainments of youth and old alike."

**LIBRARY SYSTEM**

Borrowing as from Monday

The expectations prevailing that the borrowing of books from the City Library would now be freed from its restraints was met by the system of "Library Circulation" as organized by the University. The President, Mr. J. R. Crisp, explained that the scheme was being introduced to meet the demands of students for more rapid and efficient service.

"We estimate that this will enable us to cope with the present demands," said the President, "and that it will be of the utmost advantage to the students." The scheme was expected to be in full operation by the end of the week.

**THE LECTURE SERIES**

Our University has good in its lecture program, and good speaking students and a good audience. A lecture, he said, "is one of the most important and challenging forms of entertainment that can be found. If properly presented, it can be a source of enlightenment and inspiration."

"On Dit" FOREIGN NEWS

Tuesday, 7th June, 1918

Even at the present time, when the international outlook grows more and more grave, when symptoms of a growing conflict are visible in Europe and Asia, and when lives and interests are at stake, it is more than ever important to understand the situation as it actually is, and not to be swayed by emotional appeals or by mere desire for victory. This is the purpose of the weekly column "On Dit". It is written by Foreign Editor, Mr. Robert Quayle, and it aims to provide a clear and concise picture of the world affairs of the time.

President Bridgland sat in the chair
At the last meeting of the Arts Association held on Thursday, May 17th, the President of the University, Mr. Bridgland, was present. The meeting was opened by Dr. Bridges, who welcomed the members and asked them to discuss the motion put forward by Mr. Chisholm, that the Arts Association should be abolished. After some discussion, the motion was carried, and the President announced that the Association would be wound up as soon as possible.

Evening Classes, University College

The Evening Classes at University College are continuing as usual. Students are encouraged to attend these classes, which provide a valuable opportunity for further study and enrichment.

NEWSTAFF.

For some time there has been a feeling among the students that some of the detail of this paper should be corrected. The Editors have had in mind the possibility of correcting the errors and improving the quality of the paper. It is possible that the paper may be improved if some of the students who have taken the course in English are able to make the paper more interesting and valuable.

Come Events.

Tuesday, July 2nd-Various Topics on "On Dit," George Murray, Editor.

Wednesday, June 30th-Swimming Club, L.H. Lushmore, Editor.

Thursday, June 30th-Science Association, W. Hill, Editor.

Friday, June 19th-Football Club, T. Jackson, Editor.

Sunday, June 21st-Arts Association, E. L. Jones, Editor.

"On Dit" SURVEYED.

As the title implies, this article is the work of an engineer, a man who has been working on the problem of the Survey for the past few weeks. His work has been to survey the land and lay out the plans for the new buildings. He has been working on this problem for so long that he has become somewhat of an expert in the field.

The general opinion among those who have worked on the "On Dit" problem is that the plans of the Survey are not yet decided. There are several points which need to be considered before the plans can be finalized. One of these points is the location of the new buildings. There are many sites which have been considered, and it is expected that the final decision will be made soon.

The Surveyor has been working on this problem for a long time, and he has had to face many difficulties. He has been working with a very limited budget, and he has had to make many sacrifices in order to complete the work. However, he is confident that the final plans will be satisfactory.

Proof in Crime

Much of the present dissatisfaction with democratic government has its roots in the ignorance of what might be called the reality of the local and national government, and the necessity for it. The anti-system of the government, based on the intense dislike of the people, has been amenably treated by an unprejudiced reader. The anti-system of the government, based on a desire for the failure of the government, has been wonder at the people. The anti-system of the government, based on the failure of the government, has been wonder at the people.
VARSITY UPSETS BOGSEY IN FOUR SPORTS

BY THE SPORTS EDITOR

MARGARET COWELL, REPORTER

The four sports referred to by our screaming Hendle are, of course, rifle, basketball, baseball and soccer. The rifle club was first intercollegiate for ten years. The basketball team won its first championship of the year by beating a team from the opposite side of the country, and the baseball team won their first match in convincing style, scoring seven runs to one in one inning. The soccer headquarters, not having been before, played all their opponents to win by the huge margin of 4:0.

This all happened on Saturday. Last Saturday the footballers, playing against Adelaide, pulled off a minor upset, defeating the grand old team, and increasing their tally to twelve wins.

The upsets of the year were in rifle, basketball and baseball, and increases in points, and so we have bright prospects for the four sports in this year's season.

FOOTBALL

On May 11 we unfortunately lost to Eminon in a long match. This game we should have won, adding to our small lead. We were down to 15, but we pulled away to win by the same margin.

The following Saturday we had a comfortable win against Alberton Church United at Windmill Oval. The game was very good, and the team pulled away to win by a margin of 4:0.

The team has been in fine form, and the conditions have been perfect for football.

The team has been in fine form, and the conditions have been perfect for football.

BASEBALL

Saturday, May 11, was an eventful dayene the prospects for the team at Australian. The team had been successful in breaking through the formation, and the team had been successful in breaking through the formation, and the team had been successful in breaking through the formation.

The team had been successful in breaking through the formation, and the team had been successful in breaking through the formation, and the team had been successful in breaking through the formation.

VACATION LACROSSE

ADELAIDE WINS SHOOTING

First Time Since 1907.

The inter-Varsity rate shooting match was won by Adelaide, who thus held the Inter-University Shield for the first time since 1927. This was a significant achievement for the Adelaide team, who were in fine form.

The match was won by a margin of 4:0, and the Adelaide team pulled away to win by the same margin.
