ARRANGEMENTS COMPLETED FOR UNION SHOP

JOHN MARTIN'S: OLD READING ROOM

10 PER CENT. DISCOUNT TO UNION AS RENT

UNION TO REFUND HALF

As a result of negotiations arising out of a suggestion made by John Martin & Co., Limited, there is to be a shop in the Union premises. The scheme can be best explained by briefing ourselves of the arrangements with the Committee and the Board of Street store and at the Union shops. The firm will pay the Union, as well as a release of 5 per cent. on all purchases made by members of the Union. This release will be payable at the end of each quarter. The Union will pay the firm for all goods delivered and will refund half the cost to the members. A table will be set out which will show all accounts and any errors will be automatically corrected. The Union will also provide a cash register at the Union shops, and the amount of discount will be added to the register. These accounts will operate both at the firm's bundle and at the Union offices.

THE UNION

The scheme was submitted to the Union Committee as a tentative proposal, and was approved by a majority of the Committee, and was adopted as the basis of the relations between the Union and the firm. It is significant to note that no provision was made for the benefit of the Union members, as the arrangement was made between the Union and the shop, and not between the Union and the firm. It was also stipulated that the Union would have the right to terminate the arrangement at any time. The Union will also have the right to terminate the arrangement at any time if it is not satisfied with the performance of the firm.

BUT TAKE NOTE THAT—

The present arrangement does not carry any of the usual requirements. In addition to the standard arrangements, the union committee will ensure that the firm will provide:

- SUPPORT THE SHOP
- SUPPORT THE UNION
- PAY YOUR ACCOUNT

WOMEN REPULSED

At a special general meeting of the last Students' Union, held last Monday, a motion was passed which almost doubled the number of members. The Union was asked to take action in the matter. The motion was passed by a fair majority. After a full debate, it was agreed that the Union should be divided into two sections. The Union would be divided into two sections, and the women would be divided into two sections. The following resolutions were passed:

1. The Union should be divided into two sections, and the women should be divided into two sections.
2. The Union should be divided into two sections, and the women should be divided into two sections.

LATE NEWS

We learn from the secretary of the Union that there was a meeting this evening for special discussions for the students. It is reported that there will be a general meeting to discuss the matter. It is hoped that the matter will be brought to a close as soon as possible.

EMINENT ECONOMIST TO LECTURE

WILL VISIT UNIVERSITY FOR A WEEK

For the second year in succession the Council has invited an economist to present the University and to deliver a public lecture. Last year it was Mr. Geoffrey Clark, this year it is to be Professor J. M. Keynes, F.B.A., an expert on the realms of finance and economics.

Professor Keynes is at the head of the Economic School in the Clark University, U.S.A. For many months he has been head of the Economics Department at the University, and is a leading expert on the problems of finance and economics. He is also a member of the Royal Economic Society, and is a leading authority on the principles of economics.

Professor Keynes will be in the Union on Tuesday, 16th July, at 8 p.m., when he will give a public lecture in the Union Lecture Theatre. The lecture will be on the "Economic Principles of Modern Industry." It is being prepared under the joint auspices of the University and the Economic Society, and admission is free and is ticketed.

ART NEGLECTED

CARNARVON COLLECTION

The Carnegie collection of art prints has been neglected, and that is clearly evident. Some prints are missing and the others are not on display. It is hoped that the Carnegie collection will be given more attention in the future.

THE ROLE OF THE UNION

The Union's role is to ensure that the students' rights are protected and that their voices are heard. It is important that the Union continues to support the students in their efforts to improve the quality of education and the working conditions. The Union should work towards the improvement of the campus and the facilities. The Union should encourage the students to participate in the decision-making process and to be active in the community. The Union should also work towards the improvement of the working conditions and the wages of the staff. The Union should also work towards the improvement of the facilities and the services provided to the students. The Union should also work towards the improvement of the relationships between the students and the staff. The Union should also work towards the improvement of the infrastructure of the university.

THE FOREIGN EDITOR

CAPITALISM Dying? Of course not, several men have the same financial security as ever, while new men are making money every day. It is simply a matter of perspective, and the fact that people are more aware of the dangers of inflation. The world is not as stable as it used to be, and the old system of currency has to be replaced by a new one. But the idea of a new system is still far in the future, and the current economic crisis is only a temporary setback.

THE CORRESPONDENCE

THE EDITORS

In the "On Dit" column, Mr. W. S. "Old" is claiming that the "New Mod," a supposed alternative to the "Old Mod," is not the solution to modern problems. He states that it is "just another name for the old system," and that it will not solve the problems of unemployment and poverty. Mr. Wilmot, on the other hand, argues that the "New Mod" is a positive step towards a better society. He points out that it recognizes the need for social reform and that it is a more democratic system than the old one. Mr. Wilmot's view is that the "New Mod" is the answer to our current problems.

THE APOLLO PRO ME VITO

The Editors wish to apologize for the error in the previous issue. The correct statement is: "The "New Mod," a supposed alternative to the "Old Mod," is not the solution to modern problems. It is just another name for the old system, and it will not solve the problems of unemployment and poverty."

LECTURES

The Editors, in the "On Dit" column, state that the "New Mod," a supposed alternative to the "Old Mod," is not the solution to modern problems. They argue that it is just another name for the old system, and that it will not solve the problems of unemployment and poverty. However, Mr. Wilmot, in his response, argues that the "New Mod" is a positive step towards a better society. He points out that it recognizes the need for social reform and that it is a more democratic system than the old one. Mr. Wilmot's view is that the "New Mod" is the answer to our current problems.

MORE LAW

The Editors, in the "On Dit" column, state that the "New Mod," a supposed alternative to the "Old Mod," is not the solution to modern problems. They argue that it is just another name for the old system, and that it will not solve the problems of unemployment and poverty. However, Mr. Wilmot, in his response, argues that the "New Mod" is a positive step towards a better society. He points out that it recognizes the need for social reform and that it is a more democratic system than the old one. Mr. Wilmot's view is that the "New Mod" is the answer to our current problems.

PROVOCATIONS

BEHEMOTH—LEVITATION

By Omar Khayam

I have just received an air mail letter from Germany (I'm not trying to use "air mail" letter right now, but I try to avoid it. I've always felt a little self-conscious when I do so.)

The letter is very engaging and full of all sorts of interesting information. The author, a member of the German government, describes the latest experiments in levitation.

The experiments involve the use of strong magnets and a technique called "behemoth levitation," which allows objects to be suspended in mid-air. The author describes how this technique has been used for various purposes, including medical research, transportation, and even military applications.

The letter goes on to discuss the potential implications of levitation technology for the future of transportation. The author speculates that this technology could revolutionize the way we travel, allowing for faster and more efficient transport.

I'm also interested in the author's thoughts on the ethical and social implications of this technology. The author raises important questions about the potential for misuse and the need for careful regulation.

Overall, it's a fascinating letter that provides a glimpse into the cutting-edge technology of the future.

HOCKEY

RUGBY

LACROSSE

A recent announcement by the Women's Hockey of "On the Run" was that certain events were more susceptible to weather changes. Fortunately we were able to reply to it and follow the news, but we fear that due to the great temperature and the effects of the weather, the events will be disrupted.

The Women's Hockey season is now under way, and we are fortunate to have a good number of matches to report.

FOOTBALL SUCCESS

BLENDING OF HUMANITY

The mixture of human beings is an important factor in the development of a successful team. When we blend the skills of different individuals, we create a unique and powerful force.

Remember that winning is not just about the individual performance. It's about the teamwork and the blend of skills.

BASKETBALL WIN

The Women's Basketball team is looking strong this season. With a blend of experienced players and new talent, they are poised for a successful campaign.

On Saturday we played against the top team in the league, and we managed to secure a narrow victory. The game was intense, but the women's resilience and teamwork shone through.

WOMEN'S HOOPS

Young and exciting players are joining the Women's Basketball team, providing a fresh perspective and renewed energy.

INTER-VARSITIES

As usual, the coming season promises to be a gruelling one, and there will be a number of inter-

PRIVATE FACETs

AND MORE INDOOR SPORT

The world's most popular team, the "Blacks", has been defeated in a close game. The margin of victory was a narrow three points, but it was enough to secure the championship.

The "Blacks" were playing their last game of the season, and the outcome was far from certain. The game was intense, with both sides putting up a spirited performance.

The "Blacks" are currently in the lead, and they will be looking to maintain their position in the upcoming games.

PUBLIC PLACES

The tour is set to continue, with stops in various cities across the country. The fans are eagerly waiting for the next game.

THE LATEST:

The latest news is that the "Blacks" have signed a star player, and it's expected to boost their chances of winning the league.
