MAGNIFICENT REQUEST TO THE UNIVERSITY

BOTANY AND ZOOLOGY TO BENEFIT

An interview with the Dean Collof said the information that the plans for the botany and zoology building, which has been made immediately possible by the latest bequest, are in consideration at present. By the time the building is ready to be used, the New Building will have been completed and the Foundation for the University will be in operation. It is expected that the building will be completed in the near future. The University will then be able to make the necessary adjustments to accommodate the increased number of students who will be able to take advantage of the facilities provided.

Our Dedication

For those who may have wondered what the "Magnificent Bequest" is, it represents a significant step forward in the development of the University. It is expected that the new building will accommodate the increasing number of students who will be able to take advantage of the facilities provided.

The New Building

It is proposed that the new botany and zoology building will occupy the site of the former Junior High and will have an additional wing to the south of the George Brown building. The building will be constructed in two phases, with the first phase scheduled for completion in 1940. The building will be located on the corner of Main and King Streets, and will provide ample space for the university's needs.

A Step Forward

Those who study botany and zoology at the University will appreciate that this is a significant step forward in the development of the University. The new building will provide the necessary space for the science of botany and zoology to flourish, and will enable the faculty to conduct research and teach more effectively. The building will be equipped with the latest laboratory equipment and will be designed to meet the needs of the students.

The Boyden Building

No name has yet been decided upon for the building, but it is expected that the name will be a fitting tribute to Dr. Boyden, who has been a member of the University faculty for many years and has made significant contributions to the field of botany and zoology.

REPRESENTATION ON THE COUNCIL

The question of student representation on the governing body of the University is a matter of great importance, and it is hoped that the new building will provide the necessary space for the students to be represented.

CELEBRITIES

ALAN P. CHERRY

Some are born with it, some have it thrust upon them, but it is no surprise that the story of our University's story is full of names that are well known.

The moral turns of that circumstance on a par with its finality. Its dialectic of a certain kind is inevitable. In the case of the magisterial, you could say, would be more as it were a more of a moral quality than a more

The President of the Union

MR. ROGER WILLOUGHBY

At the time when Mr. Willoughby stood at the head of the Student Body, he was recognized as a leader of the student body. He was known for his strong leadership and his commitment to the interests of the students. He was a respected figure on campus and was highly regarded by his peers.

Men's Union Committee

The Men's Union Committee is a group of students who are elected by their peers to represent their interests on the University's governing body. The committee is responsible for ensuring that the needs and concerns of the male students are addressed.

Women's Union Committee

The Women's Union Committee is similar to the Men's Union Committee, but it is specifically for female students. The committee is responsible for ensuring that the needs and concerns of the female students are addressed.

Representations on Sports Association Council

The University has a variety of sports clubs and teams, and the Sports Association Council is responsible for representing the interests of these groups. The council is made up of representatives from each of the sports teams and clubs.

Other actions are as follows:

University regulations are enforced by the Student Council, which is made up of representatives from all the student groups.

Regulations Committee

The Regulations Committee is responsible for ensuring that the rules and regulations of the University are followed.

Karen A. Blackwell

Karen A. Blackwell is the current President of the University. She has been a member of the faculty for many years and has made significant contributions to the field of botany and zoology.

ARTS AGAIN

Do you feel comfortably acquainted with the works of Michaelangelo? Does Mr. McDonald say about Professor Symons: "In every picture the conception is simple — the execution is complex"? If you reply "yes" to these questions, you are in the majority. If you do not, you are in the minority and you are wrong, for all who know the works of Michaelangelo, believe that it is better to begin the study of art by studying models and working in the studio, and not by reading about the language of art from ancient times.

In this article, the critic, Mr. McDonald, discusses the significance of Easter in the context of art. He suggests that the celebration of Easter is a time for reflection and renewal, much like the rebirth of art. He also mentions the importance of tradition and the role of art in preserving it. The article concludes with a call for artists to embrace the spirit of Easter and to continue their work with renewed energy and dedication.

S.C.M.

INTRODUCTION OF THE STUDY OF PAINTING

An artist is a man brought to the highest form of expression by his work. His work is his voice, and his voice is his expression. He is no longer a slave to his art, but is free to express himself through his art. The artist is no longer a slave to his work, but is free to express himself through his work.

PHARMACY BUILDING, 57 RUNDLE STREET, ADELAIDE

P. & I.R.C. COMMITTEE MEETING

In an interview with the secretary of the Union about the office being set up at Adelaide, the Union has agreed to the suggestion of setting up a pharmacy on the premises. This will include a chemist, a pharmacist, and a chemist's assistant. The office will be open from 9 a.m. to 5 p.m., Monday to Saturday. The Union has also been informed that the chemist will be available to attend to any medical emergencies. The chemist has been appointed as Dr. James Wilson, a qualified pharmacist.

What of the Theatre Guild?

SOMETHING DEFINITE

Sir—Debate is admirable and profitable as it is a way to bring out more people and discuss the issues of the day. It is also a way to hone our skills in public speaking and debate. However, if people are not careful, debate can lead to chaos and division instead of constructive dialogue. Debate must be guided by reason and evidence, not by emotions and slogans. Only then can we achieve meaningful change and progress. Your sincerely,

MOTHER OF SIX

Sir—A correspondent recently complained about the lack of women's voices in the debate. The issue of women's rights and empowerment is a critical one that should be addressed. Women's voices must be heard, and their perspectives must be valued. Only then can we achieve true equality. Yours sincerely,

VISUAL DISTURANCES

Sir—There are two young boys doing art who are so very similar that it is not easy to tell one from the other. One is so very much more interesting than the other, it is almost impossible to distinguish them. Yours sincerely,

SYDNEY WINS TENNIS: ADELAIDE THIRD

With the summer sports season nearly completed and the winter fields getting under way, there are few team performances to report.

There is, however, the inter-Varsity tennis, which unfortunately is not satisfactory, and if we are to judge by the results.

By defeating Melbourne by three rubbers, Sydney retaliated the Varsity Cup without the help of a match. Adelaide, with one match to a clean, were third, while Tasmania did not win a set.

In addition last Saturday saw the opening of the soccer and baseball seasons, while the baseball club opened its junior and senior conducted trial matches.

The swimming carnival held at the Unley Pool on Wednesday, April 13, was a great success. The cup was won by N. R. Wallman, with W. F. Goode runner-up.

ATHLETICS

The annual meeting will be held on Friday, May 11, in the Unley Memorial Hall, commencing at 8 p.m., where the accounts of the season will be read and other matters of the season will be discussed.

RUGBY CLUB

Last Saturday a practice match was played at the University grounds, North Adelaide, and everything turned up was a glide. Unfortunately there were many spectators, due to poor conditions, but that did not prevent the game from being quite good. The University forwards were on the winning side, and played a fairly good game. No one was injured or unable to play. The next match is to be played at the inter-Varsity level, and the result has to be a draw. In view of the fact that the match is to be held in Adelaide during the week of the annual meeting, it is to be hoped that the weather will be dry and that the game will be played to the best advantage.

The 1939 SWIMMING CARNIVAL

The swimming carnival opened with a match of canoeing and figure skating. The canoeing was won by the University team, while the figure skating was taken by the University again. The University also won the relay, and the Adelphi Club took the first position in the swimming. The University won the backstroke, and the Adelphi Club took the breaststroke. The University also won the butterfly, and the Adelphi Club took the freestyle. The University also won the medley, and the Adelphi Club took the relay. The University also won the team championship.
