CLUBS AND SOCIETIES

THE CARNEGIE GRAMAPHONE SOCIETY OF THE UNIVERSITY OF SYDNEY

It has been decided by the committee of the above society that the programs for the current year be published each week in "On Dit." It is hoped that the programs will be of interest to students and that some members of the society will write a short annotation on the works to be played.

Programme Today, May 24
Tintagel (Sir Arnold Bax).

A recent and completely English composer, and Master of the King's Music, has written a new range of orchestral works, the most well-known being the Symphony No. 1 and the two songs, Tintagel and Mediterranean.

The former opens with a description of Tintagel Castle set high up on rugged cliffs with the Atlantic reeking over the rocks below. The whole work is flavored with a Cornish spirit, and Craigie, who is appraised more fully in the next article, is likely to portray to Us Tintagel and Us Mediterranean.

Quintets in F Minor
(Cesar Franck)

It is a fact that the first of Franck's works that really freed itself from the influence of Wagner's operas was the Mass in C minor. The movement release itself aloft and stays in a realm of its own, a modern hymn to life, its peaks, towards which the whole movement is directed in a tollsone manner, and from which it descends to breath out its life at the end in a sigh of peace.

Franck is easily a musician with whom all new developments in new and strange sounds. He is the masterly touch of Franck, who, like the best of all music, is perhaps the most important and most vital music of incomparable power. He is the music of the 20th century, and from which it descends to breath out its life at the end in a sigh of peace.

For the general information of readers, this society has as its aim the promotion of good music. We welcome any music lovers who would like to join and attend the Friday lunch hour meetings at our lecture hall in the main campus. The subscription is 25/- per annum, which includes a members ticket to the concerts and record library.

Our president is Mr. Nielsen, and secretary is Miss Adams. All membership applications should be paid to them on the day of the meeting.

SCIENCE NEWS

AG. SC. CLUB MEETING, 7/5/46.

On Tuesday night, May 7, the second meeting of the year was held in the Physics Lecture Theatre on Tuesday, May 7, Dr. W. A. Thompson addressed the meeting on "Brain and Nervous System," and Dr. G. E. Stromberg on "Psychology." He dealt briefly with the popular idea of the scope of psychiatry, and pointed out that it is not limited to the study of the insane, but is really a study of the emotional condition of man.

In years past when violent insanities were kept in cages, their unfortunate were considered to be dangerous, and the non-offensive ones—alas! Since then, two main changes have been put forward—the first, where insanity is explained by organic changes in the brain, and secondly, and the more recent, where the condition is considered to be due to a functional change within the brain itself. The latter theory is supported by the fact that in cases of epilepsy as well as other serious and surgical, will cure some patients.

Dr. Dibden dealt in some detail with work of Parete on conditional reflexes, giving interesting examples. He then referred to later work which showed that conditioned reflexes are not as far-reaching as we thought, and that the two factors (a) physiological need and (b) configuration are important.

Dr. Thompson went on to explain that neural behavior was the reason for the current situation, and that the cause of the movement was directed in a tollsone manner, and from which it descends to breath out its life at the end in a sigh of peace.

The next meeting will be held at the normal time, and from which it descends to breath out its life at the end in a sigh of peace.

R.U.

Friday, May 24—Public meeting at 11.15 p.m. in Glen, II, Lecture Theatre.

A. J. A. C. General meeting, 1.30 p.m. in Glen, III, Lecture Theatre.

R.U. Women's Tennis at Home.

S.C.M.

Discussion Group, George Murray, 1.30 p.m. in Glen, II, Lecture Theatre.

A.P. S. Friday, May 24—Talk on "The Development of Modern Lubricants," Liberal Club Building, 4.30 p.m.

S.O.P.

Soup is a most wondrous dish, Which I think is most delish, Since it brings the warmth of the gurgling swash With which you wish it past your lips. Some can make a musical sound As the soup is deftly done, But I prefer the ronroning "shh" As from your plate the soup is drunk. When it comes to mentioning it, The contestant is quite self-satisfied, never again to be mentioned To pass it thru thy' hand.

With such a colourless soup, There can be taken with much enjoy.

NATIONAL UNION MAGAZINE

Contributions are called for a magazine to be published by the National Union of Australian University Students early in third term. The magazine is to be devoted to literary, artistic, and general University interests, and will be the spirit of the place of the University in the community.

Contributions are invited from all members of the University.

Contributions should reach the Editor not later than June 30, 1946. The name, address and University status of contributors should be included with their contributions.

R.U. Women's Tennis at Home.

S.C.M.

Discussion Group, George Murray, 1.30 p.m. in Glen, II, Lecture Theatre.

**SOFTBALL CLUB AT PRACTICE**

The practice was held at 4 p.m. on Thursday and Saturday.

- **AARON**
  - Mixing practices with the junior and senior boys.
  - Other players were also present.

- **ROBERT**
  - Playing left field.
  - Other players were also present.

- **MARK**
  - Playing center field.
  - Other players were also present.

- **JON**
  - Playing right field.
  - Other players were also present.

- **JIM**
  - Playing catcher.
  - Other players were also present.

**THE MATCHES**

- **AARON**
  - Played left field.
  - Other players were also present.

- **ROBERT**
  - Played center field.
  - Other players were also present.

- **MARK**
  - Played right field.
  - Other players were also present.

- **JON**
  - Played catcher.
  - Other players were also present.

**THE RESULT**

The game ended in a tie, with both teams demonstrating good defense.

**THE NEXT MATCH**

- **AARON**
  - Will play left field.
  - Other players will also play.

- **ROBERT**
  - Will play center field.
  - Other players will also play.

- **MARK**
  - Will play right field.
  - Other players will also play.

- **JON**
  - Will play catcher.
  - Other players will also play.

**THE AFTERMATH**

- **AARON**
  - Will rest after playing the previous game.
  - Other players will also rest.

- **ROBERT**
  - Will prepare for the next game.
  - Other players will also prepare.

- **MARK**
  - Will prepare for the next game.
  - Other players will also prepare.

- **JON**
  - Will prepare for the next game.
  - Other players will also prepare.

**THE FUTURE**

- **AARON**
  - Will focus on improving his defense.
  - Other players will also focus on improvement.

- **ROBERT**
  - Will focus on improving his offense.
  - Other players will also focus on improvement.

- **MARK**
  - Will focus on improving his pitching.
  - Other players will also focus on improvement.

- **JON**
  - Will focus on improving his catching.
  - Other players will also focus on improvement.
Notes from St. Mark's College

BY (the Cattergor)

At the beginning of this year, the Colts were reformed and during the pre-season efforts the team was reorganized. This year delegates to a new season, now re-opened as a University College—Colts. The main reason for the new organization lies in the fact that the Colts were not invited to participate in the full-year's program. Indeed, this brings us to the main point: the situation in existence at College and the possible prospects for the future.

Mr. D. Brown, our new Coach, stated that the activities of College members, excluding those already described as our regulars, were appointed as commissaries for the first term. These are Mr. P. K. A. Hopkins (president), Mr. D. Bennett (treasurer), Mr. J. A. Mackereth (secretary) and Mr. D. B. (vice-president). In his opening address to the Club, stressed the importance of collegiate life in relation to the University life.

Many of the present members will not remember the St. Mark's of former days—most of the known names were removed in College and have since left the University. A number of the names in the list of the officials of the College are not recognized by the new members, and while this change is not intended to prejudice the work of the College, and that by living together we can still keep up the old traditions of the College, and that by living together we can still keep up the old traditions and spirit of St. Mark's.

It is hoped that the system of academic courses (departmental) can be extended in the future to bring Adelaide to Melbourne, and to bring Melbourne to Adelaide. At present, St. Mark's is the only University College in Melbourne, and while the growing numbers of students brought to Melbourne by the additional enrolment lessens the importance of the new Club.

We are thankful to Prof. E. E. Goodenough, who has been asked to name the lists on the last day of the season, and we feel that in so doing he will make a lecture before players on tactics and rules.

Rugby

A Team

Last Saturday's game was played with enthusiasm and in good spirit, and there was every reason to feel that there were not a few good team players in the recent game. The score was 20-6, and the two teams were: St. Mark's, 20; University, 6.

Basketball

The A's had their third successive win on Saturday when they ground

led in the loop to defeat W.C.A. in the final game of the season. The game was won by the A's, who had one of the best players and played consistently well all through the game.

Periodically, players were found to be injured, and it was necessary to leave the game before the official time was called. The umpires agreed to award a free pass to the players who were forced to leave the game due to injury.

Tennis

At present, five of our members, F. B. Collett, Barbara Lorimer, J. C. D. Brown, R. F. B. Jordan, and J. R. R. Brown, are practicing very hard for the Intercollegiate tournament, which will be held at the University during the vacation, on the hard courts at the University.

Dr. M. H. Howe has kindly given us this vacation afternoon to practice for the tournament. He is preparing the players for the upcoming event, both in the classroom and on the courts. We hope our team will do well.

In the September Vac, we hope to send an Inter-varsity team to Melbourne and Trinity, and to bring home the cup again this year.
OPINION

'Where do you air your own views and view other peoples' airs?'

FOOTBALL REPLY.

The Ballon, "On Off." Dear Sir,—I feel that the Football Club has been done an injustice by "Football Go" in its recent article. I would like to point out the stupid use in selecting the teams at the commencement of the season. A practice match was held on the Saturday preceding the first match, and all present received a game. Names were taken of all players. During the week, names of players at practices were taken and the first two teams were then chosen from names on the above lists by the selection committee. A week later a third team was put in play a match in which the number of players who attended the match was made equal to numbers who attended the match.

MEMORIAL SERVICE

A Memorial Service is being arranged in the BONYTOWN HALL.

Tickets for relatives of the fallen will be available at a date to be announced in the Press. No public will be admitted without tickets. His Exaltation of Illustrious Sr. will give the address.

WORSE VERSE.

OPEN TRASH.

SPUDS.

Of all the vegetables in the dish, I think that potatoes are the worst. Whether it's mashed, boiled, or baked, a potato never does look stylish. If you must serve one, make sure that it never leaves its dignity, even when served with steak and kidney. Or, if you must serve one, make sure that it never leaves its dignity, even when served with steak and kidney.

MORIE THEATRE GUILD.

The Editor, 

Dear Sir,—I am sorry if I offended you last week concerning Thickleay night lights. Let me put it this way: the students who are interested in the Guild, are not apparently interested in writing for "On Off." Perhaps you are wise—a critique of one production in 1964 (in an issue of "On Off" with which I was only nominally connected) had disastrous legal consequences, and certainly is making a warning to you as Editor, or any would-be critic. Yet criticism is badly needed—if the "right frame" is to be the Guild's criteria for 1946. There are some further points I wish to make concerning that amateurism which is a part of my opinion that any "theatrical" effort which is not in some way a Shakespearian interpretation, or some other to which we believe Shakespeare was LICENSE to a sound interpretation of which must be the ideal (of any production), is wrong. It am pretty sure that the author did not intend a set "behind" to interfere with the action and break the fourth wall, for it is absurd, that it had no place in his imaginative conception of the play.

PERCY MUFFLES

Percy Muffles suffered more (Percy's Muffles, please note!) and doctors had never before seen (or attempted treatment) of the occasion.

Region.

The cure which thorough all ailments was the play of billiards, and air which the play of billiards was the only one which would relieve his suffering ailments.

Sad Fools

So Percy took the hall and came, and put down the flower, and stretching over the cloth, so grew.

TRAYES AND CROCKERY.

The Refectory staff has been reduced by three because trays and crockery have been left lying around the cloisters. Please do not be so careless in returning trays and crockery to the refectory. If you cannot return the crockery to the place where it belongs, you may return the crockery to the place where you got it.

GEORGE MURRAY BUILDING.

Your attention is drawn to the fact that food must not be eaten in the George Murray building. The refectory crew, as we all know, must not be taken inside other than in the presence of the refectory staff. Since many people have left these tables on the balcony, in future please return these sets and tables to the charge room.

M. McNeil.

Medical Students

We can find full stocks of Medical Books. Homeocmptics, Jane Haldane, Roadway, Swanscopes, Michaela Plavsky, Dermalisms, Sussexians, Sausage Glasses, Phenerion, Simulacrons, Ekontarions, and Surgical Instruments. (Inquiries, Dermalisms, etc.)

On Mens Arranged.

Malcolm McNeil

Phone Cen. 4762.

MEN DON'T KNOW MORE ABOUT WOMEN KNOW ABOUT MEN.

There were many touching revelations of personal experiences at the Arts Association debate on May 23. The men, Messrs. Walsh, McCall, and Newellson, argued warmly that women were far more of a commercial man, that they never admired the arts as much as they did. And the women, Misses Gullan, speaking for the Arts, revealed the superiority of women's knowledge about music.

S.C.M. CONFERENCE.

First Weekend of May, at Holiday House, Mount Lofty. Contact Mr. Whyte, Mr. Pearson or Ros Patto.

INFANT MARVELS

Have you got a child prodigy? I am always interested in hearing about child prodigies. Do you know of any child prodigy in your area? If you do, please let me know. I am always interested in hearing about child prodigies.

I am, yours etc.,

D. N. ROBINSON, Secretary Adelaide University Football Club.

Visit to University of L. C. Sir William Dobbie

Lt.-Gen. Sir William Dobbie, C.M.G., M.C., D.B.E., D.S.O., will give an address on "Our Universities" at 2 p.m. in the Senate Chamber on Sunday, June 19, at 3:10 p.m. The Vice-Chancellor and University Council will be in the chair, and guests of the university and of the Senate will be invited to attend. Members of the staff are asked to take their seats on the main floor at 3:10 p.m. The address will be read in the Hall.

General and Lady Dobbie are visiting Australia in the interval of the Inter-varsity Fellowship of Evangelical Unions meeting in the Diocese of Katharine, and are in the vicinity of the University. General Dobbie has a long and distinguished military career, and his name will always be associated with the heroic struggle of the people of Malta during the prolonged and arduous attacks of the enemy between 1940 and 1942. On the 30th he commanded Chief of the General Staff, Chief of the General Staff and Deputy Chief of Staff, British Forces in the Mediterranean. He arrived in Australia on May 12, 1949, and in the course of his recent visit to London, he was awarded the O.B.E. by the King. He is married to the former Mrs. Grace Dobie, who was previously the headmistress of the Royal Grammar School, Newcastle. She is a sister of the late Sir Arthur Dobie, who served as Chief of the General Staff in World War Two. Lady Dobbie is a daughter of the late Sir Arthur Dobie and is the sister of the late Sir Arthur Dobie, who served as Chief of the General Staff in World War Two. She is a daughter of the late Sir Arthur Dobie and is the sister of the late Sir Arthur Dobie, who served as Chief of the General Staff in World War Two. Lady Dobbie is a daughter of the late Sir Arthur Dobie and is the sister of the late Sir Arthur Dobie, who served as Chief of the General Staff in World War Two. Lady Dobbie is a daughter of the late Sir Arthur Dobie and is the sister of the late Sir Arthur Dobie, who served as Chief of the General Staff in World War Two. Lady Dobbie is a daughter of the late Sir Arthur Dobie and is the sister of the late Sir Arthur Dobie, who served as Chief of the General Staff in World War Two.
