**W.S.R. APPEAL STARTS**

**FORTNIGHT FOR £500**

Hoping to fortify tellers,出众在看到，and all the fun of the fair comes to the climes of the World Student Relief Appeal to be opened by the Vice-Chancellor next Friday. For a fortnight, students will be engaged with stalls, hops, hopscotch days, and football collections in an effort to obtain the sum of £500—Adelaide's contribution to a world total of £40,000,000 of students in Europe and Asia this year. The Vice-Chancellor, the Students' Representative Council, the KCM, E.U., and Animal Nails' club for your whole-hearted support.

**OUT OF THE RUINS**

A University should be a focal point of culture free to combine the search for truth and the elimination, without being tied in some helter-skelter with religious frills.

If you believe this, you realize the importance of rebuilding University life throughout the world.

The students of the demoralized universities know it, and are striving to bring together the remnants of their race. Most of their efforts are through little acts of food and clothing, books and buildings which we can help to realize.

The greater the cooperation between the students of the world now, while the need is greatest, the greater the hope of peace and good will in the future. Now is the chance to show practically a bond in the ideals of a mighty movement.

Today, the Adelaide committee of World Student Relief launches its campaign to raise £500 for the assistance of students in zones devastated by war.

The need is imperative and calls for an effort on an international scale, untempered by national, religious or political bigotry.

Be in it.

**KULTUR OF CULTURE**

The universities of Europe were among the first institutions to be attacked by the Nazi regime. Like in the absence of their mates, they fared well for groups of free pain whom they thrived and opposed the growing slave state. The effect on them was one of the tragedies of the people before the war. The failure of the barriers of the universities as the Nazi machine moved over Europe and Asia was a consciousness and significant feature of the war against enlightenment and culture.

As the work ended, the full effects of this belief became apparent.

**NO CONFIDENCE IN UNION!**

**FINANCE ALLEGATIONS**

Students Unanimous in Disapproval

MARCHING through the feature in the stairs of Rikshy Khorov's "Ivan the Terrible," supplied by the U.I.A.S. amplifier, a parade of protesting students, with banners stating the Union set up, excessive Union fees, and deeming "Students Say in Funds They Pay," set off the fireworks of the student protest meeting at 1:15 p.m. Thursday, 8th.

The Lady Symon Hall was uncomfortably packed by the largest crowd in its history. The number of students present more than quadrupled the previous largest to attend a general students' meeting.

The meeting was called as a protest against the dictatorial and undemocratic conduct of the last A.G.M. of the Union (Friday, May 23). S.R.C. President Hezel was in the chair.

The motions put before the indignant students expressed their disgust of the present Union set up and were passed with unanimous approval.
