ARCHITECTS SPONSOR UNIQUE AWARDS

The architectural students believe they are creating world history when, later this year, they issue their first A.S.A.S.A. Awards.

Up to three awards may be made annually for meritorious work in the following categories:

1. To the architectural student who has done most service in the Architectural Students' Association.
2. To the student of any faculty who in the opinion of the Architectural Students' Association has done most in furthering the architectural art as applied to architecture in the current academic year.
3. To the Architectural Students' Association office, which in the Architectural Students' Association's opinion, has produced the most meritorious piece of architecture.

CONDITIONS OF AWARDS

The determination of the above awards are made by any two architectural students, investigated by panels and voted upon at the general meeting of students. The award will only be made if nomination is accompanied with sufficient merit.

The A.S.A.S.A. Awards will be announced at the December 15 A.S.A.S.A. meeting at 6:30 p.m.

The winners of the A.S.A.S.A. Awards will be announced at the December 15 A.S.A.S.A. meeting at 6:30 p.m.

THE W.U.S. helps T.B. students

Of the 600,000 Japanese students, about 15,000 have tuberculosis and need some kind of treatment. Many of the causes spring from the post-war economic situation in Japan. Most students have to earn their living expenses by working during the day, or even by selling their own blood.

Living conditions are poor, and when the average student consumes a breakfast of a bowl of rice, they cannot suitably depend on student halls, or even receive adequate treatment, from tuberculosis.

When students are affected by tuberculosis, they are apt to lose all hope. They cannot attend classes, they often have no money for medical treatment, and they may force themselves to take off work. All of these helps to accelerate their treatment, and their disease.

In an effort to combat this degenerative condition, the W.U.S. organization of Japan urged the construction of a student tuberculosis sanitarium. Financial aid was given from India and the United States, resulting in the construction of the $25,000 tuberculosis sanitarium in Iwate Prefecture.

This sanitarium has been made possible by the efforts of 13 patients of Insuberitis, with assistance from a Japanese newspaper, the Japanese Student body, and from overseas students contributing $7,000 to the World University Service.

“THE SHIFTING HEART”

The Theatre Guild, a constituent member of the University Union, has entered into an arrangement with the Elizabethan Theatre Trust for the new Australian play, “The Shifted Heart,” to be produced by the Trust in the Union Hall. The opening performance will be given on August 25, and the last performance on September 15.

The Guild is to be warmly congratulated on its enterprise. Every University play is interesting in drama, but this one has the opportunity to observe how a production is done and about making the most of the limited means involved.

For University students tickets will cost 75c. For non-University students tickets will cost $1.50. Watch for announcements concerning the opening date and evening performances.

UNION HALL TO OPEN ON FRIDAY

500 official guests invited to ceremony

On Friday, August 8, the extensions to the Union Buildings are to be opened by the Chancellor of the University, Sir Melias Napior. At the ceremony, to be held at 3 o’clock in the Union Hall, both the President of the Union Council, Mr. B. L. Lewis, and the President of the Student Representative Council, Mr. Michael Smyth, will speak.

It is rumoured that during the Opening, several of the Extension rooms will be given over to the students and their guests.

"ANDROCLUS AND THE LION"

The opening of the Union Halls will be followed by a 2-hour performance of the "Androcles and the Lion" at the Union Hall. This dramatic production is presented by the Theatre Guild of the University of Napior, and is a sequel to the activities to take advantage of the facilities offered by the Union Halls.

DIMENSIONS OF THE HALLS

The installations of the hall include large dressing-rooms, wardrobe and property rooms, an electrical room, workshops, and locker rooms.

The fact that we shall now have a Hall of our own to house the widening interests of the University is a very important one, and perhaps August 8 will be the opening of a new creative era in student activities.

THE UNION CULTURAL COMMITTEE

ASSISTANT CATERING MANAGER APPOINTED

The Union has recently made the appointment of Mr. A. A. Follans to the position of Assistant Catering Manager in the Refectory, replacing Mr. A. A. Follans, who has left the Union.

The Union catering which is the only of its kind in Adelaide, hopes to build on the success achieved in the past and include dishes not previously available, and will be on its way to success.

In accordance with the opening of the Union, the Union Catering service has resolved the matter of Miss cooker, who has been held in the Union Halls since the opening.

The Union Catering service, which is the only of its kind in Adelaide, is now open for business, and will be on its way to success.

The Catering service, which is the only of its kind in Adelaide, is now open for business, and will be on its way to success.

**EDITORIAL**

**VANDALISM**

Broken steel chairs, smashed tables, ash trays, and chairs strewn around the George Murray Lounge the day it was opened, were the result of a canvas chairs raid. This is the result of a lack of concern for the University at present. It seems incredible that these vandals derive any pleasure from their wild destruction, while they destroy you and I are to be inconvenienced until they are stopped.

The Union has spent a great deal of time and money improving facilities and the surroundings of the University for us students. Is their effort to be in vain?

It will be if we do not make a determined effort to stamp this vandalism out.

**UNION HALL**

When the new Union hall is opened next Friday, the University will be blessed with a facility which is like a dream come true. The various dramatic groups can wait for the moment when the Union is open. That first night feeling will be at fever pitch, for the actors realize what a magni-

* Cue:*

The standard of productions in this hall will not double improve out of sight.

**Council Commentary**

Heigh-ho everyone, do you know the twelfth S.B.C., the present one, has only one more meet-

* Cue:*

The President was the guiding light in reducing the regulations. He and his committee have worked for the time and trouble before the final decision has been made. These regulations were well received last year, and most of those who were present were satisfied with the work done.

* Cue:*

The new regulations are designed to make the Union Hall more accessible to students. The new regulations provide that the Union Hall will be open from 10 a.m. to 11 p.m. on weekdays, and from 10 a.m. to 10 p.m. on weekends. The regulations also allow for the use of the hall for special events, such as concerts and lectures. The regulations also allow for the use of the hall for special events, such as concerts and lectures.

THE FINANCIAL STATE OF THE UNION

One of the major problems arising out of the enlarged scale of Union activities is that of finance. The 1957 financial statements of the University Union have been audited and are displayed on the Union Notice Boards.

Following the statement of the total revenue of $30,000 received by the Union in 1957, $27,000 came from statutory fees, and $3,000 from profit on refectory trading. This revenue was used to finance current expenditure by committees (such as the house committee) and constituent bodies (such as the Student's Union and Student's Association) amounting to $17,000, while $9,000 was provided for depreciation on Union equipment and the surplus of $4,000 was allocated to reserves.

The depreciation allowance and the revenue surpluses were used during the year to finance capital expenditure (such as the purchase of new projectors, and machinery and equipment, and expenditure on the Water front and other Union facilities) amounting to $9,000, and the balance was augmented by the Union's unexpended reserves at the end of the year, constituting $2,000 (and the Union's liabilities of $1,000) and reserves of $6,000 in the balance sheet.

WISE POLICY

The wisdom of the Union Council's policy of CHESS PLAYERS WANTED

There are several vacancies for keen chess players in the Union inter-collegiate teams.

Matches are played on alternate Wednesdays at 6.45 p.m. A player who joined one month ago has made a beeline for a win and a draw. Attend the meeting on Wednesday, August 14, in the George Murray (S.R.E. 112) or 113 if it is too hot, and wish to play.

The union is accepting new members at all ages. After a few games, the games are played by their respective clubs and the newer approaches the masters. If, however, the player continues to disinterest, the need for players is increased. The club championship is underway and every player is invited to take part.

LOST

Benner's "Life of Mathematics" and history notes.

If found contact S.R.C. Office or B. Valentine.

This is ONE behind...

Building up reserves in 1958, the Union's financial position will be substantially improved.

LETTERS TO THE EDITOR

announces the commonly expected emotions—associations with the past, nostalgia, reminiscence, etc.—to be irrelevant.

In a more lenient endeavor, in the above discussion, I would suggest to try necessary and sufficient conditions for the association of events or actions (the sculptor, that is). And, to be precise, the words of a prominent contributor to this issue, you are “mean to merely see the fact.”

Yours faithfully,
COLIN (L. B.) BOYCE

FLAT WANTED

The floor of the present room was addressed to the President of the University. The floor can help in any way. To put it briefly, the S.B. student, that is.

T. This is our third year in residence at the S.B. University.

We are very busy during the fall, a long time during the fall. We are not likely to get anything during the fall. We are not likely to get anything during the fall.

Run of wins ends

Following three impressive wins, knocking fielding robbed the Major A team in two matches.

Although ousting Port Adelaide 5-4, the 11th error committed by the team, assisted by Cazneau’s 10 walks, gave Port an easy win, 15-2.

The next match against the top team, Gawler, was no more impressive. After batting early when two wickets fell, and this by Herrick and Tannall scored two runs, fielding errors again lost the game. No credit is due to Gawler bowled, who scored all their runs on errors. Nineteen errors in two games is pitiful, particularly since University is considered one of the best grounds in the league.

MAJOR B

The Major B with two more well deserved wins are now well in the form.

They easily defeated Port 8-0 with McNeil again showing solid form at pitching and Blumenschein starting with the bat.

The following week they defeated the top team Gawler 6-3. The B’s two runs were scored in the first innings and McNeil beat Gawler bowlers well to check with yet again another fine batting average. Cazneau and Phillips were both with the bat.

FOUR

With two more wins in a row, defeating Gawler 16-0 and Prospect 8-2, the Minor B’s look certain to make the final now. Phil Munro is pitching in fine style and in a strong batting side is leading the batting averages. Hooking and Aonan also impressed in the batting.

The D’s were unlucky to draw 6-6 with West Torrens but must have a bit of a victory mostly since they impressively lost Paterson 10-3 the following week. Henry and Paffner (three each) proved the case, and again Paffner pitched in fine style.

MINOR E’s

The Minor E’s “winning run” has been cut short with two successive defeats, 14-6 to Goodwood and 9-6 to Burwood. Batting weaknesses are their main downfall, but Ayres and Fullman are showing good form.

—Rubarr.

Entries are invited from individuals and teams of four.

SCIENCE STUDENTS! there is a CAREER for you through the R.A.A.F. COLLEGE

Comprehensive Training in SCIENCE, ELECTRONICS, ENGINEERING

FULL FLYING COURSE

APPLY NOW—Applications Close August 22

ALL STUDENTS INTERESTED can obtain a Prospectus and full particulars from:-

R.A.A.F. Recruiting Officer,
97 Currie Street,
ADELAIDE, S.A.

ALL TEAMS ARE IN THE FOUR

The umpire’s report on—

WOMEN’S FOOTY GAME

The game between the Physics and Phys.-Eds was, I believe, a revolution— even perhaps a booster — to Ausie Rules Football, and oh, how it should be taken up. The umpires were an unusual bunch of guys, men who held the field wag and carried on. Not to mention the footy, which was... (continued)

Technique

The game, like all footy games, was very close. But the advantage was on the footy ball, which kicked well and found marking difficult, while others held the ball but were not brilliant. The kickers were all very good, but I don’t think I saw anyone who could kick the ball the way the Physics and Phys.-Eds did. The ball was not seen at all by the Physics and Phys.-Eds, as they didn’t have any fielders.

Anatomy

Spontaneous and players all, they were, very self-sacrificing in altruistic knowledge of anatomy. I still maintain that the kick and shoulder are above the abdomen—just below the head, and not, as I would have it, in the hip region. Also, the back is not beneath the umbilicus but definitely further forward.

Recruits

Both teams, I think, were very happy with their play— perhaps the Physics and Phys.-Eds could do with a few new players. The Physics and Phys.-Eds had the advantage of height and weight, I think, even if they had to compensate for the fact the ball was not seen at all by the Physics and Phys.-Eds. They showed that the little Physics and Phys.-Eds, they can kick as well as the big fellows.

JUSt HOW MANY are on the ball? One would wonder, looking at two photos on this page. Watch their draw, we say, as well as the play!

RUGBY

Although fresh from a good win against Southern Suburbs, the Woodville were unable to hold the strong Woodville side.

Woodville won the game in the first few minutes when their backs were altogether too good for the opposition. At the half-time the scores were 1:0, a convincing win for Woodville.

However, in the second half, Woodville continued to dominate, the final score being 5:0.

INJURIES, ETC.

The Woodville were beaten by the first few minutes, and both sides played hard. The University side played fairly and showed the Woodville side some respect.

STATE HONORS

University A grade players Brian Jeffery and Jeff Rogers, have been appointed captain and vice-captain respectively of the SA Cricket Union 211 team.

Jeffery, captain of the University A’s, has been playing consistently well in the back-line throughout the season, while Rogers has shown good form in the front-line.

The “A” team, after a season of excellent form, at last seem to be finding the best form of the season, having faced two close match with Sturt in July. A good, strong team, they are now in fifth position, 8 grade in front. At all costs they must keep it up, but better three, playing relatively with especially with Inter-University approaching.

Forwards

It is pleasing to see that the forwards have been coming more goal as well, due probably to the great experience of the younger ones. Woodwright, the full-back, has been showing great promise in this department of the game.

They were beating right from the first draw, and kept the colonials from a chance of putting up a good rally throughout the season, and at last they could not stand up to the Woodwright, the full-back, who was outstanding in several matches.

Threshered

The Woodwrights did not fare so well against the strong forward line, a vote cast in excess of the 25 points in A4. The team played well in the second half, but it was not enough to get them back in the game.

PERCENTAGE

The D’s, with four brilli-ant players, have rocketed to second place, with a fantastic percentage of 80%.

The D’s, with four brilli-ant players, have rocketed to second place, with a fantastic percentage of 80%.

EXAMS

With the Mid and exams drawing near, several students are now necessary to withdraw from the SA Rugby. Four days have now passed.

Let us be hopeful that everyone who is able comes out to practice, and makes himself available at least one or two days. We must have the players to field the team.

WOMEN’S GOLF INTERVIEWS

Anyone interested?

If so, see notice board of west end of club.
