PROTEST PLAN

ADELAIDE TODAY: The protest against the proposed sale to the United States of a nuclear reactor operated by the South African Atomic Energy Commission (AECL) has been named for the first time by the organizers of the peace demonstration. The protest, which is set for the weekend, is expected to attract thousands of people. The organizers say they are determined to make their voices heard and to make the world aware of the dangers posed by nuclear power. The protest is part of a larger movement against nuclear power, which has gained momentum in recent years.

The Inside Story

PM MURDER!

CANBERRA MOURNS TRAGEDY

CON-BURRA, TODAY — The Prime Minister, Mr. Billy McMahen, today murdered a poor defenceless worm while digging in his garden.

The R.S.P.C.A. was immediately informed by the worm’s mate, and throughout the city each worm was stunned in shock and stupor. Including politicians.

Stop, actually that’s what you’d have to be (as it stupid, I never saw how to get anywhere) to take any notice at all of all the ridiculous headlines that “PM MURDER!” tries to use you with every day.

I mean, of all the things they talk about are meaningful anyway, and the only important ones are all right. One can see in the headline what’s what in the world. The worm was just a worm at the end of the day. At least the worm is not bothered by the newspapers. They just make it look good to get the worm out of the hand. The worm is what they’re always talking about. It’s a good idea to get the worm out of the hand. It’s a good idea to get the worm out of the hand. It’s a good idea to get the worm out of the hand.
