FANCY THAT

Walking the street, as is my wont, I was amply entertained by a person who happened to be in front of me. At one point, I was momentarily distracted by the sight of a dog walking ahead of the person. The dog appeared to be in mid-stride, with its ears flapping in the wind. The person was wearing a hat and carrying a bag.

COWS

There was a herd of cows in the garden, which, though not perfect, did provide a delightful spectacle. The cows were grazing peacefully, their heads down as they chewed the cud. The scene was enhanced by the lush green grass and the blooming flowers.

MOTHERHOOD — 1974

BLESSED ARE THE MEK! FOR THEY SHALL INHERIT THE EARTH.

jonathon livingstone archehole

In the year 2000, the year in which everything happened, the three great thinkers of the time, Dr. Seuss, Dr. Strangelove, and Dr. E. E. Cumberbatch, gathered together to discuss the fate of the world. They realized that the only hope for humanity was to find a way to communicate with the extraterrestrial beings who were visiting Earth.

She bows, to be a fellow warrior gifted with the skill of the warrior, in my own time. Yes, I understand.

I held the world's secret in my palms, and watched as it crumbled into my hands. And as I traveled, my mind grew clearer. And I felt the peace of mind.

The summers are long, the winters are short. And when I grow old and wizen in my bones, in my hands it did pass on to its heir.

Now the summer's come, o' the rain:
It's a little dry, the sun's come round
From the branches of trees and the birds of the air, and again.

The sun is the heart of the world, and the moon is the heart of the darkness. And the stars are the eyes of the world, and the planets are the hands of the world:

It's a little dry, the sun's come round
From the branches of trees and the birds of the air, and again.
THE GOOD LIFE?

It seems like they are stealing my brains again, doctor...
