ELECTRON AND ATOM.

PROFESSOR BRAGG'S SECOND LECTURE.

The second of the three lectures by Prof. W. L. Bragg, M.B.E., F.R.S., on 'The Electron and Atom,' was given at the University of Adelaide in the Rees Lecture Theatre, on Friday, 22nd June, 1954, at 8.30 p.m. The audience was comprised of members of the University staff and students, and the lecture was preceded by an informal reception in the Principal's lounge.

MISCELLANEOUS NEWS.

UNIVERSITY EXTENSION LECTURES.

Mr. Dudley, M.B.E., the Honorary Secretary of the University Extension Committee, announced that the lectures for the current year would commence on Tuesday, 26th August, and run through to Thursday, 20th December.

Mr. SODDY ON ELECTROLYTIC.

Mr. Soddy, M.B.E., the Professor of Chemistry at the University of Adelaide, delivered the first lecture in the series of extension lectures on 'Electrolytic Activity.' His lecture was well attended and the audience was treated to an interesting and informative lecture on the subject.

The lecture was held in the main lecture theatre of the University, and was attended by a large audience of students and staff.

Mr. Soddy began his lecture by discussing the history of electrolysis and the development of the subject. He then went on to explain the principles of electrolysis and the different types of electrolysis that could occur.

He then went on to discuss the properties of electrolytes and the different types of solutions that could be formed. He also explained the different methods of measuring the properties of electrolytes.

The lecture was well received by the audience, and many questions were asked by the students.

The lecture was followed by a question and answer session, during which Mr. Soddy answered many of the questions asked by the students.
