THE SCIENCE CONGRESS.

RETURN OF PROFESSOR BRAGG.

Professor Bragg, of the Adelaide University, arrived in the Melbourne steamer on Friday morning, looking much worse for wear in the wake of his recent trip to New Zealand, where he attended the Dunedin Science Congress. Professor Bragg, as is well known, has been associated with the Adelaide University for the Advancement of Science in the past months. He is the first to be received by the University, and has been a particularly devoted and tireless worker, and in that capacity delivered some of the most important addresses of the scientific section.

THE UNIVERSITY OF ADELAIDE.

ELIZABETH SCHOLARSHIP.

The following ELIZABETH Scholarship have been awarded by the University:

First-Year: Maria J. Keel.
Third-Year: Anna K. J. Fenwick.

Degree of Bachelor of Science.

Supplementary Examination, March, 1904.

Post-Laboratory Practical class in Chemistry (Part I).

Microscopy.

Register, 12th March 1904.

Mr. and Mrs. Ferdinand Bauen arrived in London a few days ago, and have taken up residence at their new home, No. 10, South Kensington. They found themselves in financial straits, having been recently married, and found it necessary to move to a more modest living at their new home. They have taken up residence at their new home, No. 10, South Kensington. They found themselves in financial straits, having been recently married, and found it necessary to move to a more modest living at their new home.

There were great things among the students of Edinburgh University on Thursday last, when the second annual meeting of the students' union was held. The meeting was attended by a large number of students, and was well organized and conducted.

There was considerable discussion of educational reform, and the students expressed a desire for the introduction of more modern methods of teaching. Professor Bragg was one of the speakers, and his speech was well received.

The following is the list in connection with the scientific section held at the University of Adelaide, held on March 12, 1904.

Ad. 4th March 1904.
