AMUSEMENTS.

OLDER CONSERVATORY.

The second concert of chamber music by the members of the Older Conservatory under the direction of the Elder Hall on Monday evening in the presence of a large and interested audience was attended by two works already performed during the season on the program—the Cello Concerto in C major by Schumann and Schumann’s piano quartet, op. 47, in the same key. The Schubert trio, which opened the program, was played by Mr. E. H. shrimp (first cellos), Mr. H. E. Hethcoat, and Mr. H. C. Kapiutig (cellos). Both of these movements were executed with extreme care and precision. As a contrast to the general enjoyment of the whole work, the music was performed with greater simplicity and restraint by Mr. E. H. shrimp (second cellos), Miss P. E. Adler (violoncello), and Mr. H. C. Kapiutig (cellos). The music was played with a certain amount of feeling and attention to the accompaniment. The piano solo was accompanied by Mr. E. H. shrimp.

NEWS OF THE DAY.

TEACHERS’ CONFERENCE.

The annual conference of the South Australian Teachers’ Federation was held in the University Library on Saturday, August 20th, 1903. The President, Mr. E. B. Warden, presided, and the meeting was attended by a large number of members representing the various branches of the Federation. The President opened the meeting with a brief address, after which the agenda was read and the business of the day was transacted. The meeting adjourned at 10 p.m.

UNIVERSITY EXTENSION LECTURES.

THE ELECTRIC.

Professor Bragg gave the second of his series of lectures on the electric on Tuesday evening, when the attendance was again very large. The professor, in his usual genial manner, gave a general outline of the simple heating of the room, and then discussed the various properties of the electric heat as compared with those of other forms, the result with the excellent results obtained in the use of the electric heat, and the economy of the electrical system as compared with that of other systems.
