London, May 5.
Arrangements are being made at the instigation of Sir Gilbert Parker, University M.P., for Grenada, for the graduates and undergraduates of the University of London, who are taking their examinations in the island, to be held in a temporary college, to be opened on the day of July. It is hoped that the movement, which meets with the hearty approval of many colonial students at the University and Malaya, in addition to the Aga Khan, will result in bringing the Colonial University to the attention of the public, and securing that the graduates are obtained from the registry of the University. Further particulars will be found in our advertising columns.
