The Commissioners of Public Works (His, E. W. Foster) and the Superintendents of the School of Mines and Industries at Randwick have been appointed by the Government to be the judges of the best exhibits made by students of the School of Mines and Industries, which were exhibited during the School's annual exhibition held in 1903.

The judges were: Sir John Logan, the Chief Commissioner of Public Works; Sir William Haselden, the Commissioner of Public Works; and Mr. W. G. Broderick, the Commissioner of the School of Mines and Industries.

The exhibits were judged on the following criteria: merit, beauty, and utility. The awards were: first prize, £10; second prize, £5; and third prize, £3.

The exhibits included: a model of a steam engine, a model of a machine for the production of electricity, a model of a mine shaft, and a model of a railway station.

The judges were pleased with the quality of the exhibits and commended the students for their hard work and dedication.

The awards were presented during a ceremony held at the Government House, Sydney, on 22 February 1903.
