THE LAST OF MR. TURNER.

In an interview with Florence Nightingale, the late Sir Thomas Phillipps, Bart., states that he was much impressed with Mr. Turner's ability and his determined and continuous efforts to promote the cause of Midwives. Mr. Turner was a great advocate of Midwives and is said to have been the first to introduce the systematic training of Midwives in this country. He was also a strong supporter of the National Society for the Prevention of Cruelty to Children, and was a frequent contributor to its annual reports.

SUCCESSFUL MEDICAL STUDENTS.

The case of Mr. John Smith, who has successfully passed the final examinations of the University of Oxford, is worthy of note. Mr. Smith has been a student for six years and has shown a remarkable capacity for medical studies. He is now preparing for the final examinations of the University of Cambridge, and is expected to pass with distinction.

MR. TURNER'S EFFECTS.

The effects of Mr. Turner's treatment on Mr. Brown's case are remarkable. His general health has improved, and his physical and mental condition is much better than it was before the treatment began. The results of the treatment are expected to be permanent.

UNIVERSITY OF ADELAIDE.

The President of the University, Mr. G. H. Smith, delivered an address at the opening of the academic year. He said that the University was well equipped for the training of medical students, and that the curriculum was designed to provide a thorough education in the sciences and arts.

THE CHIEF JUSTICE'S RECOVERY.

Forty-six years ago, Mr. Justice Smith, who is the Chief Justice of the Supreme Court of South Australia, was severely wounded in a duel. He has been in a critical condition ever since, and his recovery has been watched with great anxiety. The Chief Justice is now much improved in health, and it is expected that he will make a complete recovery.

A SUCCESSFUL ADELAIDE STUDENT.

Mr. James Smith, a student at the University of Adelaide, has been awarded a scholarship for his excellent work in the sciences. Mr. Smith has been a student for four years, and his work has been marked by great brilliance. He is expected to make a successful career in the medical profession.
