**Interleukin 1 beta gene (*IL-1 $\beta$* ) single nucleotide  
polymorphisms and the association between  
periodontitis and preterm birth**

**A report submitted to the University of Adelaide in partial  
fulfilment of the requirements of the Degree of Doctor of Clinical  
Dentistry (Periodontics)**

**Anand Padmanabh Prabhu**

Postgraduate Periodontics Student

**Dental School**

**University of Adelaide**

### **Interleukin -1 $\beta$ Single Nucleotide Gene Polymorphisms and the association between Periodontitis and Preterm Birth. A Literature Review.**

<b>1.1</b>	Introduction	2
<b>1.2</b>	Genetic Risk Factors in Periodontitis	2
<b>1.3</b>	Genes and Cytokines	3
<b>1.4</b>	The interleukin 1 gene system	4
<b>1.5</b>	Interleukin 1 gene polymorphism and periodontal disease	6
<b>1.6</b>	Conclusions about genetic risk factors in periodontitis	11
<b>1.7</b>	Preterm Birth and Low Birth Weight	12
<b>1.8</b>	Risk Factors for Preterm Birth	14
<b>1.9</b>	Linking Preterm Birth to periodontitis	19
<b>1.10</b>	Studies that show periodontitis is a risk factor for preterm birth	24
<b>1.11</b>	Studies that show periodontitis is not a risk factor for preterm birth	30
<b>1.12</b>	Conclusions about studies on periodontal disease as a risk factor for preterm birth	36
<b>1.13</b>	Preterm birth, Interleukin-1 and periodontitis	38
<b>1.14</b>	Conclusions and Hypothesis	39
