

REACTION BETWEEN NITRIC ACID AND COPPER

by

Lancelot Salisbury Bagster

Doctor of Science (D.Sc.)
[1920]

Please note: This page created as the thesis lacks a title page.

Table of Contents

The Reaction Between Nitric Acid and Copper

Experimental Work

Part A

Quantitative Determination of the Reaction Products

Part B

Effect of Nitrous Acid on the Rate of Solution of the Copper

Part C

Determination of the Nature of the Gaseous Products of the Reaction Between Nitrous Acid and Copper

Additional publications

Binary Mixtures of Liquefied Gases

Compounds of Calcium Chloride and Acetone

Electrolysis of Hydrogen Bromide in Liquid Sulphur Dioxide

Properties of Binary Mixtures of Some Liquefied Gases

Electrolysis in Liquefied Sulphur Dioxide
