[Collected papers for Thesis for D.Sc. degree]  
by  
Richard Daniel Kleeman  
Doctor of Science (D.Sc.)  

Please note: This page created as the thesis lacks a title page.
Table of Contents

Paper 1.  
On the recombination of ions made by [alpha-beta] Y- and X-rays

Paper 2.  
On the ionisation of various gases by [alpha-beta] and Y-rays

Paper 3.  
On the secondary cathode rays emitted by substances when exposed to the Y-rays
