Mr. B. Campbell said the question of the payment or the repayment of the loans required immediate attention. The educational situation existing in the State was not only causing a great delay in the way of progress. The educational tests conducted for the purpose of knowing how far progress is being made in the railway service, for instance, would have a direct bearing on the educational standards of the people. The railway must be improved, and the local government should undertake the responsibility of improving the railway service. The railway should not be allowed to fall into disrepair, as it was a vital necessity for the well-being of the community.

Mr. Cooper said the railway must be improved, and the local government should undertake the responsibility of improving the railway service. The railway should not be allowed to fall into disrepair, as it was a vital necessity for the well-being of the community.
