The resolution was carried by voice vote and was adopted by the University Senate. Senator Watters was appointed to serve as the chairperson of the committee.
Each week, direct from the cobwebbed bowels of the On Dit archives, we will bring you a slice of this campus’s history as recorded faithfully over the last half a century by that most illustrious of rag’s, On Dit. Which might just be the grottiest, the baddest, the bizarrest, the most notorious, the epic, trailblazing and the unaggressively grotty, the greatest houses and the worst scandals you’ll find it all each week in...

Regiment formation

1948. Coming hot on the heels of further international unrest, and to the shock of many, America was preparing to re-introduce conscription to save the peace, the announcement that the University Council had approved the decision to form the Adelaide University Rifles (A.U.R.) was not without significance.

The formation of A.U.R. brought Adelaide Uni in line with leading English universities, and with Sydney and Melbourne Universities. Prior to the Second World War the Sydney and Melbourne University Rifles were the crack units of their states’ militia, and were immediately converted into Officer Training Units at the outbreak of hostilities, and hundreds of students graduated to commissioned rank.

Dangerous proclivities

The Henrietta Frump Award for the letter that abused the most poetic metaphor to effect a genuine impact. Finalist: "Lost" who wrote his masterpiece for On Dit. In recent years fresher’s have been addicted to driving cars at dangerous speeds, and in that the瓦砾 grounds, convener has been known to tear the tyres in a skid and noise is no object (except of emulation). "Dear youth, this is part of that self-display common to animals from Homo sapiens upwards. If you consider that these impressions are also very fresh and hardly worth impressing, you may learn to curb your dangerous proclivities. The fashion of mutilating fell hats has even been prevalent; the wearing of garter ties is not unknown; even, by it is said, among the sopherites: but there are some people who can clothe their necks rakishly, who shall be impressed to the vomit. To the vomiters fresher’s shall be less of a nuisance and not do too much harm to the antiques of moral cleanliness. Also one of your characteristics is to stop and talk and never stop laughing, never stop laughing, which is one of the drawbacks of co-education. Could you be burbling and subdued... as I am."

Gross initiation ceremony

1944. Engineering students have long been associated with gross acts, a reputation well earned if reports about their initiation activities are accurate. The following is a report in On dit about engineers’ activities on March 28, 1944.

"There was no trouble for the men who looked out at the University last night when new engineering students were initiated. Their eyebrows were heavily marked with boot polish, a moustache was painted on them, and their noses were coloured bright red. "Blindfolded, they were made to kiss something fluffy, said to be a dead cat, which had a dreadful smell (later found to be caused by high-powered cheese). "The lads had to take off their shoes and socks and were provided with a wire that gave them electric shocks. Then there was a relay race, in which they had to crawl along the floor, each pushing with his nose an evil-smelling rag.

"Others had to box blindfolded, while occasional blows came from gloved outsiders." The engineers regret that News scooped this item from On dit but for the benefit of our readers would point out that the something fluffy was not said to be a dead cat, it was definitely presented as a dead dog, Thorogmore's pup, to be exact. This column eagerly awaits the details of 1985 Engineering ceremonies."

The ALL-NEW, FAT-FREE, SAT-FREE, KID-FREE and HIPPO-FREE CAPTAIN ADELAIDE

Search for Trevor Part 3E

On this planet in the universe the experimental weapon has been developed. It is the answer to our problems."

"No man! I don’t want that weapon."

"And what do you call this planet, then?"

"I don’t know!"

"Then if we’re on the same planet, how do you explain this?"

"I don’t know!"

Next Episode: The Return of the Native!!
The Adelaide University Regiment is now walking tall on campus once again, after years of ostracism. DAVID WALKER poses the question—are they militant fools or just people doing something worthwhile?

For a long time, the light had been fading. A dusky silence had descended on all, stillness abounding. A pair of figures were peregrinating the pigeon-birds of all the moments within the Australian bush. This was a scene of the night.

The light was full of army Reservists. Over a dozen of them, in tough khaki uniforms and boots, camouflaged with faces of mud and posture, all jamboned and fighting. As they walk, they say. In the flat evening light they were all too invisible, cloaked down, etc., their black belts tied close to the ground.

Regarding to the commanding officer's hand sign, they paged through the open gully between two areas of forest. For a mere reserve unit, they were impressive, mostly wearing fresh uniforms, as they looked as if they'd been there and with their full guns of full blasts.

Eventually, as they entered the woodland, machine-gun fire ran past the peacekeepers and war-game was entered. Two of the officers participated there was little but the sounds of machine-guns. And the sudden lurching stinging of the officer and weapon corporals, followed and followed on no other frugmentation, a new batch of energy.

For many of the Adelaide University Regiment it meant being in the fine dust and white-burnt grass. Everyone is proper and uniform, and the talk is all of RSL, OCH and OIC, and the music system is perfect. And I might call them the Adelaide University Regiment. As the sun is fully set and the sun is fully set in the camp, everyone is proper and uniform.

The exercises are to provide training for urban activities. Of its 355 members, all over 35 percent are currently studying in Adelaide universities. The Adelaide University Regiment is a reserve unit of the Australian Army Reserves. It is a part of the Adelaide University Reserve Unit, which in turn is a part of the Army Reserve.

The exercises such as you have a lot of your training at Yatala and over the summer are obviously a piece of work. It is part of the value of the Army to the Adelaide University. It allows university students to experience military life while working on their studies.

Driving down the line of cars, the officers sitting at the tail of the parade. The officers, they take their benches and train with their normal unit. The officers they might be disturbed from mild service according to the how they are worn. Old exercises at Yatala are their big ones. And they do the good job. Some things may change, but Army landowners stay the same. Of course, not all officers are the same. Some officers are the same, all noise and smoke, with the scent of coffee strong in the air.

The Adelaide University Regiment is a reserve unit with a difference. Like all university regiments its purpose is to provide officer training for undergraduates. Of its 355 members, all over 35 percent are currently students in Adelaide universities. It is part of the Adelaide University Reserve Unit, which in turn is a part of the Army Reserve.

As all we elite syoung university students know, bread and circuses are to distract the masses from thinking on serious matters. Thus the ruling classes can get on with it. Actually, we're no better than this philosophy and so, those will most likely entirely misunderstand our role as B&C editors.

We will accurately announce events in Adelaide and interstate that we hear about every week; and, as we think yard's more social life than "academic" weekly features will explore matters that reflect students' interests and people. If you can hear to think, you can bear us as editors.

P.S. We also think 100 words is ridiculously short for a representative policy statement.

Andrew England
and David Monk

A Bread and Circuses under our sponsorship will never be straight and down because we've got the big brush for your bowl. Special features will include a rumour column: a students' top 10 and three corny strips, a feature of your features we've grown to love. We are not political hawks (i.e. neither of us has ever read a subject and we don't have here and the Students' Activities Office. And yes — we've each had experience with other publications.

So remember — like a ring on a finger.

Monday 1st April

Student Activities Office 9.00 a.m. - 5.00 p.m.
Engineering School
C.A.N.S.
Airport Lounge

Tuesday 2nd April

Student Activities Office 9.00 a.m. - 7.00 p.m.

Voting in the By-Election will take place on
KRAMER, Shawn

Secretary, Overseas Students' Association, Treasurers, AUP Students' Association.

For the past two years, the Union has slowly fallen under the control of a group of Liberal power-hunters. It has been a huge drop in staff morale and thousands of dollars of unnecessary spending of students' money. This trend must be reversed. Control of students' affairs and finances must ultimately rest with students, not a top-heavy bureaucracy. Bureaucratic, Liberal dominated Council, who have recently attempted, twice, to hand over our Accommodation to the University. It's like putting a mouse in charge of the cheese.

I, like fellow ALPSA candidates, support participatory democracy and students involvement in decision-making, not backroom bargaining by managers.

I will also push for Union Councillors to attend the meetings of the University's committees, as representatives. These committees must be there to serve student needs, not merely run up a large contract for a company to show their future employers.

Don't vote for the Liberal students with their loyalties elsewhere. Vote ALPSA students. Vote 1 Shawn Kramer.

FLAHERTY, Chris

The annual fee is here to stay, as the most important thing students want Union Council to do:

1) Ensure that if we students have to pay Union Fees, that such a fee is "REASONABLE", and that we aren't paying more than our fair share of the money out of Union facilities.

2) If elected to Union Council I shall work to ensure that students services are efficient, accessible and as cheap as possible.

Well, that's my policy. Now, if you would like to know what the word "policy" can mean "political wisdom", then there are many, many people in the world (see to that one). Basically I am running for Union Council because I bloody well want to be on it. I suppose I could sit here and speak up about nothing, and crack lots of trendy in-jokes, but I am not going to let this just go. I am going to tell you to vote for me! PUCK. Without knowing if I have written a policy statement I think it is a very nice one, actually.

Now with every great policy statement there should be at least one cliché.

So VOTE 1 Chris FLAHERTY-HIS NAME!

MAT, Lorraine

University Union is a large and unruly organisation that seems divorced from the everyday needs and desires of students. Although the Union may give this impression, two things must be considered:

1) It's all we've got.

2) But with proper student representation it could lose its infamy.

If I was elected to the Union Council I would ensure that students were represented and that the Union was properly run. I am a responsible person and would not be blinded by political posturing or infighting. So in the immortal words of a politician: "HOW ABOUT A VOTE."

CLEMENT, Brian

3rd Year Science Student.

1985 Orientation Ball Co-Director. Union employee. ALPSA Committee Member. 1984 On-Dit Shack Editor. On-Dit Advertising Manager. Stage Manager: End of Your Show. "Icehouse"

Having worked in the Union for the past two months, I feel that if I have the experience required for responsible participation in the administration of the Union, the Union provides many essential services for students which need to be maintained and upgraded. It is imperative that the Union's first priority be its members and their needs rather than some extreme political ideology.

People for whom we represent will participate.

HARFORD, Chris

Education, Services Standing Committee, Footlights Committee.

If there is a reason why you should vote for me rather than the other candidates it is pure sympathy. In just over 2 years at University I have run for Council 3 times, for Student Association President once and for Law School Society President twice. And I have never been elected: My vote is running out please cast it. I promise to try my very best to do a good job. You don't know what it's like to lose time after work, to accept the advice of others to give it a go just to be kicked in the face on waking day. For the sake of your self-respect and so I can once again walk around Uni with my head held high - please vote for me. I don't care who you are or what you look like. I do believe that you may be fat and ugly with terminal acne doesn't mean I don't want you here. I accept it - I'm desperate. I want a seat on Council and I'm willing to grovel to get one.

WOMBLE, Lucy

Electrical Engineering. 3rd Year Rep.

Many Union facilities currently run at a considerable loss. Students pay for this loss through excessive Union Fees. Only effective Union Council and management can make these facilities profitable and keep fees down to a reasonable level by simply managing our scarce facilities better and using our services to the full potential these services possess.

Currently every student of this University must join the Union. This provides a coherent management with an open invitation to waste money. Voluntary membership would force the Union to be profitable in its own right and give all students much better value for their money. The Union should allow students to offer students much better value for money.

Let's stop the navy form playing petty power poli- tricks with our Union fund. A.U. Union management control.

For stronger welfare services, a better deal on extracurricular Union Fees, only control of student affairs.

Vote 1 Lucy Womble.

WILLIAMS, Laurie

4th Year Law Student.

As students we are all being affected by the Union's dwindling services. The Child Care Centre is under threat. The Union Card this year is a total rip-off. If we do not stand up and demand a stand, we will be going down to the Union that we will continue defending for students' rights.
