The Wrong Stop!

—Some Tram Lines

American literature has, as yet, no deep roots, no great traditions. Its drama is always the overshadowing present, the exaggeration of the passion moment, the child-like attempt to be an illusion of the past, a past that is richer and happier than the futur. "A Streetcar Named Desire" never leaves the tracks as it makes its way down the same old road.

But there is a second generation in that half-world which is the American Theatre, two romantics, built into a society which has made literature and the Mocking Bird house its gods. The first is American Comedy and the Great American Tragedy. The other is the fable, and perhaps to console himself at the thought of the American, the race recently transferred into Big Men in this American American Comedy and "Life With Father" gone on, though it narrowly escaped the murder in "Death of a Salesman."

Our future in, however, up-1

SOPHISTICATION

LITTLE girls, prematurely grown old; Hair very

Heavy lidded

Intoxicated by life at its lowest

Drawing hard on ivory holders

Dangling what might have been

Lingered gingerly—

This is life!

PIERCING the heavy hum

A swirling giggle

Owned by a thing six inches.

Some low jokes

At that moment the core and meaning of life, Thrilling the mind into recessant convolutions.

Life is good!

And so tonight,

With the silver honed moon on high

And life at its most inspired;

She was inspired

With blood and body and sweet

And sweet life's sudden ebb and flow.

I.C.C.

I shall send a copy of this letter to the Editor of "On Dit" as I wish my attitude to be known to as many of my friends as possible, and to persuade them of this eugenics organization (the I.C.C.) which started out with such promise. Yours sincerely,

IAN MARSHMAN.

Mr. I. M. Marshman has chosen to resign from the International Co-operation Club because he is opposed to the United Passion Peace Petition. Falsely, I regret the removal of this entire staff!

My passionless comrades are in no way moved by the thought of co-operating with the right wing on the most important question of the day, namely that of peace. On the contrary, I welcome it. I should have hoped the same to be true of them.

The Peace Council of Australia is opposing the petition and so are thousands of organizations, political and non-political, all over the world. It is of little consequence to me what group cares to sponsor a genuine peace effort. It is apparent that the people of the world think similarly, as hundreds of millions have already signed the petition. The Council was formed in 1918, originated from the Soviet Union within the first ten days too.

Some would have it that "we treat everyone with equal respect, but we have not said it." That is not the case. What we say is that we treat everyone with the same respect and care, regardless of their race, sex, or creed. We believe that everyone deserves to be treated with dignity and respect, and that we should strive to create an environment where all individuals feel valued and included. In doing so, we hope to foster a sense of community and belonging for everyone who walks through our doors. We believe that by treating everyone with equal respect, we can create a safer, more just, and more inclusive society for all. In conclusion, we would like to reiterate that we believe in treating everyone with equal respect and care. We understand that there may be challenges and obstacles along the way, but we remain committed to working towards a better future for all. Thank you for your understanding and support.

Turning now to the Kiddles, a younger generation, and their return to the menu, we find that they are fundamentally opposed to Catholicism. They are a group with an unspoken agenda that permeates throughout society. Their goals are far-reaching and often go unnoticed. Their strategies are well thought out and executed with precision. Their methods are ruthless and无情. They are a group that is not to be underestimated. Their influence is felt in every aspect of society, from politics to culture. They are the true leaders of the modern world, and their power is not to be taken lightly. The Kiddles are the future, and their influence will be felt for generations to come. We must be ever vigilant and aware of their movements, for they are a force to be reckoned with.

**SOCCER**

This year Adelaide is the venue for the Inter-Varsity Soccer Carnival. Teams from Sydney, Melbourne and Adelaide will be participating, making it one of the most competitive events. The winners carrying home the coveted Inter-Varsity Cup.

The standard of soccer promises to be extremely high, as the teams have been selected from the best players in all Australian Universities (Olympic semi-finalists). Despite this, we feel that the home team, its young and vigorous players, is not too formidable to be overthrown by the highly experienced and well-balanced teams of the visitors. However, the home team will be a force to reckon with.

The tournament will start on August 30th, with matches scheduled throughout the week. The final will be on September 2nd.

Open Invitation To Train

The University Athletic Club has been fortunate in securing the services of Mr. D. Denko (formerly a Hungarian State Athletic Coach), who has generously offered to coach University students in a purely honorary capacity. The club has already started training classes on Monday and Friday nights at 7:00 PM.

Anyone, whether he be an athlete, cricketer, tennis player, etc., is invited to attend and become thoroughly fit for the coming season. Those who have never played in athletics are particularly welcomed, as Mr. Denko is sure there are many potential champions among us.
