W.S.R.

WEEK BEGINS

RECORD £1,000 TARGET NEEDS YOUR HELP

World Student Relief, representing the 'Varsity's one and only charity, aims at the record-breaking sum of £1,000 this year. Highly-geared organisation, the result of many months' planning by its student and graduate committees, goes into motion this week with a succession of big activities beginning with Speech Day, which brings the message of W.S.R. to the student body.

For this year, Adelaide's traditional Student Day takes its place in the Drive Week and for two hilarious hours the pillars of student dignity cast off their inhibitions, satirise their pursuits (two broad) and begin to enjoy life. To freshers especially, we say, "Be in it, Alins Maker isn't as dead as she looks." Later, the sky flyer will have a hundred and one opportunities to improve his social graces at parties, picnics, dances and barbecues and what-have-you for several weeks while the W.S.R. Drive continues.

The encomium will find absorbing interest in the Miss University Content, with a bevy of beautiful intelligent. Faculty representatives in the contest will be all out to receive your support, so dig deep and give some encouragement to those girls who are really trying to do a good deal of trouble for the cause of W.S.R. Further particulars on the competition may be found in the special article on Miss University.

Main fund-raising activity will be the perpetual collection scheme, whereby every single student is privately approached to give a donation. This scheme was adopted last year by Kevin Magrath and his committee, in the belief that a true spirit of giving towards our less fortunate sister brother students can only be manifested by each student soliciting a personal sacrifice towards the repaying of our debts to the various cultures. Students' personal donations are the only means of a tangible expression of their belief in the 'world-wide value of knowledge and free spirit.

Staff and graduates are already giving a magnificent lead so as to enable the outgoing students to spend the next few days ago restful in a flood of silver dollars, pouring without limit into the battle for the principles for which World Student Relief stands. Faculty members will therefore show their own efforts are contributing to the drive.

UNIVERSITIES IN NEED

Since their inception, the Universities of the world have been the focal points of the world's cultural achievements, of the most noble of mankind's aspirations. In Australia we are not exempted from the universal blow at truth and democracy, but the resultant destruction of the ancient seats of learning is not only a political and moral but also a student life's ideals and aspirations.

The efforts of European nations and South-Raid students to resist themselves are apparently inadequate through lack of food, clothing, medicine,稍稍, and simply being "poor." Today, while foreign students' needs are so great, greater our cooperation with them should be. We have the opportunity of spreading goodwill among nations and ensuring it is the future. We must realize our previous efforts have been unfruitful, and we need to raise our efforts.

Conditions in Poland are typical of those in many European countries. During five years of occupation, six million citizens, many of whom were women and children, perished in the Nazi death camps. Four million were killed as a result of deliberate extermination in the gas chambers, or died from hunger or ill-treatment. An estimated 100,000 Polish Jews were deported to concentration camps.

World Student Relief was formed in 1945 for the purpose of distributing aid to the child of the war. It was established to bring aid to the children of the war and to begin toBokoset the existing bodies, which were the United Nations and the United Nations Relief and Rehabilitation Council.

The Polish situation was one of utmost urgency, and the international community, through its various agencies, undertook to provide all possible help. The Polish government, led by Dr. Lech, and the International Federation of University Students, which represents students in over 100 countries, have been working in close cooperation, providing materials and medical aid.

The Polish situation is one of continuing need, and World Student Relief continues to work towards providing aid and support to the Polish people. The Polish situation is a nationwide crisis, and the efforts of World Student Relief are crucial in providing relief and assistance to those in need.

CHINESE STUDENTS AIDED BY W.S.R.

1950 Procession In Doubt

That fabulous institution, the Annual Varsity Procession, is in danger of cancellation. A move to abolish the procession was averted at the last meeting of the S.R.C., but it is expected that a final decision on the matter will be reached at next week's S.R.C. meeting.

At the May meeting of the S.R.C., Mr. Bruce Anderson, speaking on the motion "That the Procession be held in 1950," said, "It is good to hold a procession, but let us be realistic.

The year's effort was certainly not spontaneous. The whole thing was a very poor show." The motion was seconded by Mr. Gerry Woodall (Liberal). A suggestion was made that the matter should be referred back to the various faculty associations. Mr. Lionel Cameron (Pharmacy) opposed the move, saying: "If we can't do it let's stop it."

The matter has been discussed before and nothing has been done. A committee has been appointed to discuss the question. They should already have made up their minds as to whether or not to continue the procession. The whole thing was a very poor show.

The motion was passed by one vote. Mr. Atherton (Liberal) said that the matter of the procession lies on the table. This revision was carried and Committee agreed to obtain the views of the various faculty societies upon the matter.

Queensland University has just held a successful procession. It is, however, unusual for such a procession to be held in Queensland, and the question of whether or not to continue the procession remains a matter of debate.

The motion was passed by one vote. Mr. Atherton (Liberal) said that the matter of the procession lies on the table. This revision was carried and Committee agreed to obtain the views of the various faculty societies upon the matter.

The procession has been a tradition in Queensland University for many years, and it is believed that it should continue. The motion was passed by one vote. Mr. Atherton (Liberal) said that the matter of the procession lies on the table. This revision was carried and Committee agreed to obtain the views of the various faculty societies upon the matter.
The Reply

World Student Relief is still at work. It still confronts a scene of devastation, poverty, maltreatment and intellectual hunger, and undertakes to spread wisely and fairly the funds at its disposal for student relief.

The whole conception of W.S.R. is a place of inspired improvisation, and is essentially unstable. An outgrowth of permanent organisations for an emergency crisis is not possible. Roman Catholic and Protestant, the Jewish Student Union, and the student union of the International Student Union, with the 'London International Student's Service to make up W.S.R. There are profound and stubborn differences of belief and outlook between these bodies, and the fact that their representatives have continued so long to co-operate indicates to a degree the extremity of the situation. All the decisions of the central executive are unanimous, and the distribution of relief is strictly impartial. Students in need, whether in Europe or in Asia, are assisted to help themselves without discrimination as to color, nationality or creed. Moreover, the programme of action is so flexible that equal amounts are spent annually on Europe, China and South-East Asia (including India, Burma, and Pakistan).

Who would deny that W.S.R. is a remarkable achievement of student enterprise and good sense? It is part of the answer of civilized people to the twentieth century attempt to wipe off civilization's future. Independent, vital and informed leadership finds its education in the Universities. Consequently, Universities had a high priority for the best students to attend the Schools and universities. Buildings, equipment and libraries were destroyed and burned; students and professors were murdered or incarcerated or had to leave. The war was a war around the world.

The reply to hatred, destruction and ignorance (barbarism, in a word) is fellowship, rebuilding and advance of knowledge (civilization) in the making. It is the surest way to make the world safe for democracy and a world student community, giving aid to student self-help projects, and caring for D.P. students. W.S.R. spreads over the world-wide student community the responsibility for re-establishing student life and work which was almost annihilated.

We have before us then a world of opportunity for students. Each one of us can assist the total effort, and whether we contribute much or little we have assurance on two important points: (1) W.S.R. administration absorb all levels of students and funds; (2) that, no matter how much the distribution would automatically lower the percentage; (3) The actual distribution is supervised by the spot and field desk of the Executive Committee.

The Appeal Committee believes that members of the University of Adelaide can find $1,000.00 in 1940. The wise use of $10.00 or $120.00 in a distribution would automatically lower the percentage. We need only reflect when we are asked in the compulsion weeks to give money and we part in activities carried on by us who are "unfortunately" fortunate; we are here in Adelaide; temperate climate, plenty to wear, safe, etc. We are asking that a small amount as a subscription be added to a comfortable University with buildings and labs, intact and a well-stocked library.

This enterprise of co-operative reconstruction is no more than a beginning. It is the beginning of individual student goodwill and prudence giving all students a civilized world upon the current centres of student hardship and frustration.

M. S. FINNIS
Chairman, W.S.R. Appeal.
The Prime Minister (RT. Hon. John Curtin, P.C., K.C., LL.M.) will address students at a meeting in the Elder Hall next Friday, June 23, at 1:00 p.m. This meeting, address to which is free, is under the auspices of the Adelaide University Students' Union.

Interviewed on Friday, the Liberal Union secretary Mr. Brian Guise declared that if the authorities had been consulted he believed the meeting would have been held at the normal time. Mr. Guise explained that the President of the S.R.C. would not be able to sit upon the platform with the Prime Minister and Mr. Brian Guise. However, a special seat would be reserved for the Editor of "The Dil" at the press table.

A special half-hour was arranged for Senator "The Dil" at the press table.

Free Board and Lodging

A special program has been made by Messrs. Thompson and Board, Co-Directors of the N.U.A.A. Congress, to provide free board and lodging during Congress for the person providing the best slogan publicizing the Congress, which will be held during July 1950 at the holiday complex of the Zinc Corporation at Largs Bay.

The slogan contest will be open to any University student in Australia, and any number of entries may be addressed to the co-directors, c/o Adelaide University, 1950 Congress. The closing date will be August 11, and the results to be announced in the University press in each State.

Suggested types of slogans are:

"Boy, and play the字样 at Largs Bay, S.A." (as if a fish, spent a whole day at N.U.A.A., S.A., Congress"

The Congress will cover two days of the most animated activity and excitement, the most enlightened argument and rubbish; the most splendid argument and rubbish, the most entertaining argument and rubbish... the most entertaining argument and rubbish. The Congress will take place in a breathing - a task, comparable to the hot, sandy deserts that are only too well known for their hot, sandy deserts... for their hot, sandy deserts... for their hot, sandy deserts... for their hot, sandy deserts... for their hot, sandy deserts.

The food will be better, and you'll feel better afterwards if you take your opportunity to enjoy the food and wine available at the event. The Congress will be on the first floor of the Adelaide University Union, under the guidance of the organizers.

More information can be obtained from the organizers, who are working tirelessly to ensure the success of the Congress. The Congress will be held in the Adelaide University Union, under the guidance of the organizers.

**Fair Shares For All?**

Once upon a time, it was generally conceded that if the forces of Capital employed the wage-earning classes as to divert business and economic activity entirely to their own will and advantages without any regard to the personality of the worker or social, or economic life in general, they would be guilty of a grave crime. Furthermore, it was well perceived that for good or evil it was a fact that a capitalistic economic order had pre-arranged the whole social and economic sphere for which we have not been able to control the changes in fortune of this capitalistic order.

And, in fact, coming to more recent and painful times, it is not new to find the class of workers who took part in the development of the factory system and the search for the richness of the owners, but only the roots of industrial progress, and many of whom have beensubmerged in the present system. This power, as far as the particular interests of those who hold common property and money are concerned, should be avoidable.

Now it was quite clear that there is no existing social order for domination.

For there was the struggle for dictatorship in the economic order, and the facts that the total number of separate relations is definitely reduced, that the economy and state industry was reduced by the size of their enterprises, that the state and their government were also so many who were not interested in the government, and that the government was not interested in these people who were interested in the government. Because the government has no certain and definite interests, or as the case may be, in the shape of the government and its agencies.

As for those who voted that these people, who were being, whether the box creators or the other disregarded people, they were being forced to join the box creators and other disregarded people.

The few who went even fur- ther in the idea of the idea of this original position are the economic struggles of the people who, having been taken by the government's property and being unable to interact with the interests of the capitalistic order, are involved in a series of events, in the public sphere, and are able to transform their interests and not their will.
