Culture or Hypocrisy?

In only a hill-billy push such as Adelaide could the nurture of inflated grudges masquerade so successfully as the impressure of culture.

Cinema:

JOAN OF ARC

Few characters in history have given rise to so much literature, in so many forms, as the Maid of Orleans. All kinds of story-tellers have had a go at the life of Joan of Arc. The latest effort is a technicolor film.

In 1924, David Manners, a silent vet, released in Australia, "Joan of Arc," which was hailed over the world. The picture was in silent form, and as such, it is a mark on the record of the cinema.

The late Victor Fleming, director of "The War of the Worlds," "The Ten Commandments," "Gone With the Wind," "Swallows and Amazons," is dead. He was probably the only director who rises above the ranks of the rest. His is a name that will be a part of the film industry forever.

For some, this means the end of an era. For others, it means the beginning of a new chapter in the history of cinema. But, for now, let us focus on the legacy of this great director.

In the world of cinema, he was known for his ability to bring stories to life on the screen. His films were not just about the characters, but about the emotions they conveyed. He was able to create a world where his audience could feel the joy, the pain, and the struggles of the characters.

The legacy of Victor Fleming will continue to live on through his films. His work will inspire future generations of filmmakers to create stories that touch the hearts of audiences around the world.

ART

The best sellers are the unopened Ellas and the much overpriced "Joan of Arc." The theater and the symphony are the fashion promoters.

Architecture is misunderstood. The basilica now overly universal. Architecture is the name that gives the mausoleum of the dead church building unhappily in a new and different light.

Swimming is our favorite sport in the saloons or lounges of the public house. Sunbathing is our favorite pastime at theracecourse.

Execution is conducted in public. The death of the unladen colossus could not disturb the heart but not the mind. The death of the unladen colossus could not disturb the mind.

The beauty of a woman is the result of a great deal of love that goes into it. The result—graduations in the high dress of the nude emaciated and high fumés of a round for the old women.

If our newspapers spent half as much time and energy reporting local news and events as they do national and international news, then maybe date night in Adelaide could become an alternate to the usual pub crawl or dinner at the local pub.

The local art community is full of artists of all kinds, from painters to sculptors, and everyone in between. They are passionate about their work and are always looking for new ways to express themselves.

For those who want to dive deeper into the world of art, there are plenty of options available. Many of the local art galleries host exhibitions of work by local artists, and some even have workshops where you can try your hand at art. These are excellent opportunities to not only support local artists but also learn something new.

FAMOUS AFFAIRS—a lament

There is much to be said for the principle that "it is better to murder the classics than to be slaughtered by shop." As Sam Goldman said, "The latter was the fate of the Student Theatre Group in its commencement of Gertrude Jennings "Family Affairs.""

Letter of the Week

Sr.,—Highlights at Con Jan included, inter alia, a very good performance of "The Merry Wives of Windsor." The last A.M. of the S.R.C., held on April 3, heralded the emergence of what could become a very powerful pressure group. At least in principle said Mr. Harris's amendment, which was turned down by Miss Fisher, and yet who could not bring themselves to vote "against their better judgment" when they knew we were cretinously wrong.

Unfortunately, too, there must have been many Collegians at a losing side who agreed, at least in principle said Mr. Harris's amendment, which was turned down by Miss Fisher, and yet who could not bring themselves to vote "against their better judgment" when they knew we were cretinously wrong.

The passing of this amendment produces a situation where Cretin College can University College Types (yes, this animal does exist) will have to face some tough questions. Soon election slogans strangely resembling those used in our State elections, we shall see the "Do you know that one story?" unfortunately, not one story? This will be a turning point in the Australian university scene, at least in the eyes of the politicians. At our rate I now know why Trade Union votes are always unanimous!

D.R.P.

Mariksm

Shr.—Are the residential students so far above the rest of us that we must have all our special representative on the S.R.C.? At the last general election, the University Students' Council was elected, and let's be fair about it in the S.R.C. the University Students' Council is not.

This is basically the same line we were voicing in support of the question of the "extra" vote for the University College. If we are agreed that College representatives should be elected by the students, then it follows that it is likewise reasonable to allow all the University Students' Council to elect their representatives for this important work, without forcing their unprepared and unselected colleagues to vote as general electors. This constitutes some claims, an "extra" vote for the University Students' Council, but there is no way of preventing this tragic end.

Conscientious Objector

Inveigled Eagle

Shr.—The eagles, an architecturally significant bird, have been hosed down, not fumigated, with pyrethrum powder. This is a sad turn of events, and Genenral and General Representative, but merely significant of the extra, amiable gnomes we owe to our "full-time students."

It is unfortunate and prophetical that the issue seems to have been generally regarded as a contest—College v. The Rest. Our decision is representation has no nothing to do with some petty snobbish sense of importance—but is a sincere wish to see that University and College Students should be closer, more harmoniously and purposefully together. It is in fact, largely to clean this miserable influence of internment and bickering that we ask the privileges of becoming inbred, as well as in spirit, good and faithful servants of the University whole.

SCIENCE

The Science Society has announced that a meeting will be held in the near future with two exciting speakers. The meeting will feature Dr. Jack Sonderling, who will discuss the latest research on climate change, and Dr. Jane Smith, who will talk about the potential benefits of renewable energy sources.

SOCIETIES

Socialists

On March 13, Mr. A. Drumm hosted a meeting of the socialist group in the Union House. The meeting was attended by a group of interested students who discussed various topics related to socialism.

Law

This year's elections for the Law Faculty's student body have been marked by a record number of candidates. The election campaign has been lively, with each candidate seeking to attract the support of the student body. The results of the election will be announced on Friday, April 12.

Engineering

The Engineering Faculty has announced the formation of a new student organization, the "Engineers for Change". The organization aims to promote sustainable engineering practices and to advocate for environmental and social justice.

COMMERCE

At the annual general meeting of the student council on Wednesday, April 15, the new students' union officer was elected. The new officer will serve for the next academic year.

Debating

Inter-Faculty debating debating is under way this week, with the first debate being held in the Great Hall. The debate is expected to be a lively affair, with each team utilizing all available resources to gain an advantage.

Diary

- Monday, 15th: P.I.P. Meeting, Room 305, Union Hall.
- Tuesday, 16th: Anatomy and Physiology Lecture, Room 306, Union Hall.
- Wednesday, 17th: Debate Practice, Room 307, Union Hall.
- Thursday, 18th: Public Speaking Class, Room 308, Union Hall.
- Friday, 19th: Debate Practice, Room 307, Union Hall.

S.C.M.

A study group for "Discipline" will be held on Monday, April 20, in the Student Centre. The group will discuss the importance of discipline in personal and academic life.

Medical Students

The Medical Students' Society is hosting a fundraising event on Saturday, April 21, at the Union Hall. The event will feature a variety of activities, including a talent show and a silent auction.

CHEQUE

Commonwealth Bank of Australia
The Commonwealth Bank of Australia is offering students a special student account with a free debit card. This account is designed to help students manage their finances and build a credit history.

To write a CHEQUE...

Paying accounts by cash means standing in queues, waiting for hours, and irritating delays, waste of time.

That's why CBA offers 40 seconds to write a Commonwealth Bank cheque. It is the simple, quick, and efficient way to make payments.

Paying by cheque has other advantages:

1. You don't have to wait for a cheque to be processed.

2. Cheques can be used in most places.

3. Cheques are easier to use than cash.

4. Cheques are safer than cash.

For more information, contact the Commonwealth Bank of Australia today.

It takes only 40 SECONDS!

1. Identify the payee (the person to whom you are paying money).

2. Write the amount of money you are paying.

3. Write the date the cheque is issued.

4. Sign your name.

5. Date the cheque.

6. Deposit the cheque at your local Commonwealth Bank branch.

Write your account number and the account name at the bottom of the cheque.

Commonwealth Bank of Australia
The Commonwealth Bank of Australia is the largest bank in Australia and offers a range of financial products and services to help you manage your money better.

SPORTS ON WEDNESDAY

MUGS FOR CHAMPIONS.

The 1950 University Sports will be held next Wednesday afternoon on the main University Oval. Several members of the University staff have donated five fluted mug trophies which will be awarded for the best performances in five of the main groups of events which are being organised. Many lectures have been held for the afternoon, and a huge crowd is expected.

In addition to the championships in all events the following handicap races are also on the programme: 100 yards, 220 yards, 440 yards, 1 mile. A different system will be followed this year in allocating points for the University Cup. All championships have been divided into groups, and a box will be made for points from one event in each group. The next race is as follows:

- 100 yards, 100 yards, 220 yards, 440 yards, 440 yards, 1 mile.
- 100 yards, 50 yards, 100 yards, 150 yards, 200 yards, 250 yards.
- 100 yards, 50 yards, 100 yards, 150 yards, 200 yards, 250 yards.

Javelin:

The season has been marred by injury to many of our leading men, particularly in the University Club, who managed to hold its own in athletics this year. The second second in the Inter-Club Championship and two third places for the Welsh Challenge Cup in the Inter-Region Championships lost the cup on no over-sight and not being able to get the best athletes. However, the donation of these trophies will be a step in the right direction, as they represent a genuine effort on the part of the University for the betterment of the game.

The Inner-Varsity Athletics meeting was held on May 24 and 26. Naturally, the university was too large for the meeting to be as competitive, but the meeting promised to bring out some of the championship standards. All records and championship records in athletics are invited to train under proper supervision and to compete at the University Oval.

CRICKET

Women's cricket is over for another season, but before you say you have missed it you should remember that A.U.W.C.C. is in retrograde.

At the end of its third comparatively successful season we can honestly say that the standard of cricket played by the various third-year intercollegiate players in B. Southwell, M. Adeney, and Rosemary is entitled to be considered as amongst the best cricket played in this country. The batting especially has been a credit to the university, and it is hoped that more men will be found in the future who will continue the fine standards set by the above men.

The competition so far this season has been very keen, with only one game won by a margin of 7 wickets.

The matches were played on Saturday and Sunday, with the women's team winning both games.

RUGBY GOES TO THE PIGS

A number of Rugby Club members spent a "long week-end" over Easter at Home. They found the weather very good, and enjoyed the company of their fellow members.

The matches were played on Saturday and Sunday, with the women's team winning both games.

Soccer Club Abandons The Class War

At this time of the year, a young man's fancy lightly turns to Winter sports, and although many rugged Vartry men deny that their Winter sport differs from their Summer pastime, we feel it is time they turned to higher things.

It is here that we modestly introduce the University's new Soccer Club. It may be said that here lie the University's Little League and it is here that the team has been held in silence. Due to the inordinately sporting and social brilliancy of the team members, a tradition has arisen that the Soccer Club is exclusive. It is intended to be a pure and unadulterated, unpretentious, and self- Conscious Club, to which the interested and the talented and the proletariat to be selected only to feel their place. Nothing could be further from the truth. Even Engineers have been allowed to carry the ball.

By a series of gentle hints, the old boys of the club have been induced to listen—"we broke Wiltshire's leg twice and put him out for five weeks"—and we hope that with the new talent that is being sponsored by the club, the old boys will be agreeably surprised.

We are trying to raise a first-class team for the 2860 season. Our first team, with its fine fitness training, is moving at its normal speed, and we hope that the less accomplished members may soon be in a position to take part in the training.

Our team consists of a brainy, agile, and physically fit team. At first glance, we may be at a disadvantage, but we believe this to be a temporary state of things. By the end of the season, our team will be in a position to compete with the best in the country.

ROARING

With the coming of the autumn, a new era opens up for the University and the Inter-Varsity contests. The games are of the utmost importance to the university, and the successful men in the autumn—those who have just completed 3 weeks of hard training—are going to have a very hard season. The university will have to face the winter with all its terrible storms and snows in the past three seasons. The university rose to the challenge, and in 1950, 1951, and 1952, we have completed 3 weeks of hard training.

This year, the Inter-Varsity contests will be held in Sydney, Melbourne, and Hobart. The university will be in a position to face the winter with all its terrible storms and snows in the past three seasons. The university rose to the challenge, and in 1950, 1951, and 1952, we have completed 3 weeks of hard training.

ADELAIDE UNIVERSITY FOOTBALL CLUB

APPLICANTS are invited to attend on the following: Good Friday: 10 a.m. and 2 p.m. (Good Friday and Unemployed will be held on the above-mentioned highly-respected positions will be available from the University.)
