UNIVERSITY REFORM.

A MELBOURNE SCHEME.

Melbourne, September 15.

Since April “the Inquiry Committee” appointed by Melbourne University Council for the purpose of inquiring into the advisability of a scheme for reform has been sitting almost weekly. A full report has now been drafted, but will be submitted for further consideration by the committee before its final adoption. It is suggested that a president of the University should be appointed at a salary of £1,500 per annum. The report of the committee, including the minutes of the adjourned meetings and the attendance lists of the committee, and comprising a list of names of all the members, has been transmitted to the registrar.

The largest portion of the committee’s recommendations is a desire to bring about the admission of M.D. and M.B. students to the University. To this end, the report of the committee includes a list of the names of all the members, including the attendance lists of the adjourned meetings and the minutes of the committee.

A larger sum is required for building purposes. The crowding and insanitary conditions in the older halls of the University are complained of. The administration of the University, the Board of Trade, and the University officers have expressed a desire that the University should be able to continue its work with safety and comfort. The report of the committee includes a list of the names of all the members, including the attendance lists of the adjourned meetings and the minutes of the committee.
