THE CHIEF JUSTICE.

IMPROVEMENT MAINTAINED.

Their Honors Mr. Justice Gordon and Mr. Justice Murray, who were engaged in hearing cases at the Supreme Court on Friday, read the following telegram, regarding the condition of his Honor the Chief Justice (Sir Samuel Way), due to his illness:

"Wound practically healed. His Honor will be up by Monday. Sir Alexander MacCurdy, delighted with such progress in four days." Counsel expressed their satisfaction at the news.

The following telegram has been sent to the Chief Justice by Mr. Cohen (chairman of the King Edward Memorial Committee):

"We desire to convey our deepest sympathy with you and express the hope that you may speedily be restored to good health."

At the meeting of the Wallaroo Town Council held on Wednesday night, at the instance of Counsellors Clarke and Ashton, the town clerk was instructed to write to the Chief Justice conveying to him the sympathy of the council.

The following resolution was passed at a meeting of the Conference Executive of the Methodist Church held in Pine Street, on Friday evening:

This meeting expresses its deep interest God for the faith and position which he has endowed his Chief Justice to face this trying ordeal through which he is passing, and also extends his heartfelt congratulations on the prospect of his speedy recovery. The council's wish for his speedy return was also expressed.

The continued progress of the Chief Justice was referred to at a meeting of the Council of the Chamber of Commerce on Friday, at the instance of the president (Mr. A. E. Dawes), who was invited to address the Council on the subject of the Chief Justice's case. He expressed his hope that a full recovery would be made.

The British Association.

PREPARING FOR THE VISIT.

THE ADELAIDE PROGRAMME.

FOUR INTERESTING PLACES.

Almost before the people of Adelaide realize it, this city will be illuminated by a constellation of the most brilliant scholars that ever gathered in the Southern Hemisphere. The coming of the representatives of the British Association for the Advancement of Science, who will make Adelaide their headquarters for four days early in August, will mark an epoch in the advance of Australian education. Among the visitors are men whose names will live in the history of science for many centuries, and Australia may be sure that sufficient resources will be found to tempt them in the interest of the propagation of knowledge to visit the Commonwealth. Dr. A. C. D. Rivers, who is also secretary of the central committee, arrived in Adelaide from Melbourne yesterday to confer further with Professor Sir Charles L. and Mr. A. D. Hall.

Mr. Oliver Lodge, who was president of the British Association in 1906, will deliver a lecture on 'The Ether of Light' on the evening of August 12.

Professor Sillars, Professor of Geology in the University of Oxford, will deliver a lecture on the same subject on the evening of August 13.

Charles Lenoir, formerly head of the Dominions Department of the Commonwealth, will be the president of the geographical section, but his name has not been announced. He may be expected, however, to pay a visit to the city, in which Sir Douglas Mawson and the Antarctic expedition are conducting their work.

Mr. A. D. Hall is president of the Agricultural Society, which will hold its meetings in the city.

Social and Scientific Trips.

Excursions will be arranged for the visitors to Angaston, where Mr. C. H. Angus will entertain the persons present at his home. The excursion to Mount Lofty will be opened by a speech from the Prime Minister, and will visit the chief points of interest. Others will be announced later.

Mr. S. W. Morgan will visit the malaxers, and will address the visitors on the subject of the malaxers.

On August 13, the visitors will retire to the hills, and will visit the estate of Mr. E. C. C. Muller, and will return by the same route.

On the return journey to England, many will take the opportunity of taking the trip to the Great Barrier Reef, and a large proportion of the excursionists who visit Adelaide will also join the steamers Osprey and Otis to Port Albert.

Vacation already here.

A number of visitors have already arrived, and many more are expected to arrive in the next few days.

The British Science Congress.

OFFICIAL PROGRAMME.

The official programme of the coming Assembly of the British Association for the Advancement of Science, which will be held in Adelaide during the month of August, is as follows:
