PUBLIC EXAMINATIONS.

Various causes have contributed to the delay in publishing the results of the recently held senior and junior public examinations for 1912, which should have been available towards the end of December. In order to meet the convenience of the teachers the examinations were put off until a fortnight after the usual date, and as a result, the students should fall as near the break-up for the Christmas vacation as possible. That meant that the examinations were not able to complete their work before the holidays. Another reason was that there were records of candidate numbers in three of the divisions—junior, senior, and junior commercial. The senior commercial candidates for 1912 numbered only 9, compared to 22 for the previous year. A factor which also affected the completion of the results was that the examinations were held in centres in Western Australia, and the examiner missed no ones. The papers were not delivered until a week after the examinations. In fact, many of the examiners have only just handled their papers. The number of candidates who sat for the examinations were—junior, 612 (representing 6,000 papers); senior, 352 (2,000 papers); and junior commercial, 507 (500 papers) representing a total of 9,339 (4,553 papers).

A Murray Bridge correspondent writes:—"The Minister for Education has given the go-ahead for the Murray Bridge, and Mr. Arthur Hilton, R.A. has been appointed as assistant in charge.

The Murray Bridge was designed by Mr. A.W. Cowdall of the Murray Bridge School, and was completed in January, and studied for both the senior and the junior public examinations. The Murray Bridge School is being built at a cost of £10,000, and is already in use.

Before extra funding is given to the University, the utmost care will be taken to safeguard the future requirements of the Public Examinations. The University has been made the Exhibition Gardens, and the west portion of the Exhibition Gardens will be handed over to the University, but it is very doubtful whether this will be done, because the exhibition gardens, which have their site in the public gardens of the city, will be kept under the control of the library board. The best reason for this is the most popular gardens in the city, while the building itself is in constant demand for educational, religious, and other purposes.
