TRE NEW UNIVERSITY COUNCIL.

Under the University Act passed last year the University of Adelaide has been endowed with the constitution of the University Council. The first meeting of the Council was held on Friday. The chief business on the agenda was the election of the President and Vice-President. The Hon. S. J. Way, and the Hon. J. J. Dunham, M.L.C., were elected to the constitution of the University Council. The first meeting of the Council was held on Friday. The chief business on the agenda was the election of the President and Vice-President. The Hon. S. J. Way, and the Hon. J. J. Dunham, M.L.C., were elected to the presidency of the University Council. The first meeting of the Council was held on Friday. The chief business on the agenda was the election of the President and Vice-President. The Hon. S. J. Way, and the Hon. J. J. Dunham, M.L.C., were elected to the presidency of the University Council.

THE UNIVERSITY OF ADELAIDE.

A meeting of the Council was held on Friday afternoon, when there were present the Vice-Chancellor, the Chancellor (Sir W. F. G. Carey), the Secretary of the University, the Registrar, the Treasurer, the Auditor, the Librarian, and the Professor of Fine Arts. The meeting was opened by the Chancellor, who stated that the Council had been specially convened for the purpose of receiving the resignations of the Vice-Chancellor and the Secretary. The resignations were accepted, and the Council proceeded to elect a new Vice-Chancellor, who was appointed by the Governor.

THE SKIPPING STONE.

PROBLEM OF THE SPLASH.

RESEARCHERS BY MR. B. WHITTINGTON.

The skipping stone is one of those remarkable phenomena of nature observed by many of us. It is generally believed that the stone, after being thrown into the water, will skip across the surface of the water, leaving a splash. The problem of the splash is one of the most interesting problems in the field of physics. The splash is caused by the impact of the stone on the water surface, and is due to the transfer of energy from the stone to the water.

HOW STUDENTS WIN FEES.

More than £15,000 was earned last year by students at the University of Adelaide. A large number of students were employed to work during the holiday season, and they were paid at the rate of 2s. 6d. per hour. The students were working in various industries, such as the railroad, the telegraph, and the printing press.

INTERCHANGE OF STUDENTS.

A letter from the secretary of the Interchange of Students for the International Interchange of Students was read at the meeting of the council of the University of Adelaide on Friday. The letter stated that the council was willing to consider the possibility of an interchange of students with the University of Sydney.

JOHN BAGOT PRIZE.

At the meeting of the council of the University of Adelaide on Friday a communication was received from Mr. John Bagot, offering £250 in trust to provide a John Bagot Prize in connection with the examination in the science of Forestry. The council resolved to accept the offer and to use the money to encourage students in the study of Forestry.
