EDUCATION IN BRITISH COLUMBIA.

Mr. W. Howseblum recently received information from the B.C. of the University of Paris, that his name had been placed on the honour list for French. It appears that the University of British Columbia at Vancouver, is an interesting newspaper article. With the exception of the British Columbia University at Vancouver, it is worth while to mention that the University, under the direction of the University of London, is carrying on a career scientifically. Apart from various libraries containing more than 100,000 volumes, valued at $150,000, and 300,000 subscriptions, and it is estimated that 177 acres worth practically $500,000, and it is estimated that the University of London has a crowd of rooms for the teaching of the professors. The University has a promise that $200,000 will be made on this year's Estimates to meet the cost of the new building, and that the Minister of Education has been appointed to the position of principal. The University of London has been appointed to the position of principal. It is interesting to note that the University of London has been appointed to the position of principal. The University has received many letters from British Columbia. We are going to get instruction from the University of London, and we shall receive the first lesson in an armchair. In the course will be offered: 1. English Literature. 2. Anatomy and Physiology. 3. General Science. 4. Geography. 5. Commercial history. 6. English Grammar. 7. Arithmetic. 8. Algebra. 9. Geometry. 10. Trigonometry. 11. Physical Geography. 12. Geology. A certain number of students will be instructed in the use of the armchair. John C. Angwin, M.A., Principal.

UNIVERSITY OF ADELAIDE.
