THE GOVERNMENT GEOLOGIST.

The appointment of the new Government Geologist, Mr. F. A. L. Brown, was discussed in the Legislative Council at its meeting on Tuesday. The following is a summary of the discussion:

Mr. M. T. B. L. Brown (Government Whip) said that Mr. Brown had been appointed to the position. Mr. Brown was a well-known geologist and had a wealth of experience in the field. He had previously worked for the Department of Geology and had been involved in several major geological surveys. Mr. Brown was expected to bring a fresh perspective to the role and was well-suited to the job.

Mr. J. D. H. Brown (Opposition Whip) expressed his support for Mr. Brown's appointment. He believed that Mr. Brown would be an excellent choice for the position and that he would make a valuable contribution to the Department of Geology.

The minister assured the council that Mr. Brown would be provided with the necessary resources to carry out his duties effectively. He also mentioned that Mr. Brown had been chosen after a thorough review of the applicants, and that he was confident that Mr. Brown would be a great asset to the department.

The meeting adjourned after the discussion on the appointment of the new Government Geologist.
