"A STAR OF SCIENCE"

Dr. Mawson Welcomed to Melbourne.

MELBOURNE, March 30.

At the invitation of the Lord Mayor (Mr. Hennecy), a large number of citizens assembled at the town hall to-day to publicly welcome the Antarctic explorer and his party. The President (Mr. Cook), in supporting the boast of the health and prosperity of Dr. Mawson, Capt. Davis, and the members of the expedition, said that the Antarctic had been the scene of scientific achievement and enterprise, and that the party had met the men and women of the expedition, the result of which was a great deal more to earn money than the men and women of the expedition, the result of which was a great deal more to be done.

Dr. Mawson, in responding, said that the expedition had been a great deal more to be done.

The Provincial Government, he said, had done all in its power to ensure a successful outcome of the expedition. He also expressed thanks to the members of the expedition for their help in carrying out the work of the expedition. The success of the expedition was due to the hard work and determination of the crew.
