A Great Gathering.

The first official welcome home to Dr. Mawson, after his great expedition to the Antarctic region, was given at the University. The citizens of Adelaide would have liked it to have been in the Town Hall, but the audience might have been too large for the building, and it was arranged to be in the Music Hall, where the audience was a large one, and the atmosphere rather stuffy. The program included several addresses, and the meeting was well attended. The meeting was opened by the Vice-Chancellor, who welcomed the students and staff to the University, and expressed his pleasure at seeing such a large audience present.

The first address was delivered by Dr. Mawson himself, and was followed by several others, including the President of the University, the Vice-Chancellor, and several other distinguished guests. The meeting was adjourned after an hour of discussion, and the audience was invited to remain for refreshments.

-Welcome Home.

University Greeting to Dr. Mawson.

The first official welcome home to Dr. Mawson, after his great expedition to the Antarctic region, was given at the University. The citizens of Adelaide would have liked it to have been in the Town Hall, but the audience might have been too large for the building, and it was arranged to be in the Music Hall, where the audience was a large one, and the atmosphere rather stuffy. The program included several addresses, and the meeting was well attended. The first address was delivered by Dr. Mawson himself, and was followed by several others, including the President of the University, the Vice-Chancellor, and several other distinguished guests. The meeting was adjourned after an hour of discussion, and the audience was invited to remain for refreshments.

-Achievements of the Expedition.

"Now, ladies and gentlemen, I am going to congratulate you all on the success of the expedition. It is a great honor to have been a part of such an important event. The expedition was a great success, and it has brought many discoveries to light. The scientific knowledge gained from the expedition is invaluable, and it will continue to benefit humanity for years to come."
