## SIGNED STATEMENT

This portfolio contains no material which has been accepted for the award of any other degree or diploma in any university or other tertiary institution and, to the best of my knowledge and belief, contains no material previously published or written by another person except where due reference has been made in the text.

A final draft of this portfolio was edited by Mr. Philip Thomas. Mr Thomas is an Information Technologist and librarian, not a Health Professional. He was advised to restrict his assistance to the Australian Standards for Editing Practice (ASEP) concerning language and illustrations and completeness and consistency.

I give consent for this copy of my portfolio, where deposited in the University Library, being available for loan and photocopying.

## ACKNOWLEDGMENTS

This research portfolio would not have been possible without the generous support and assistance from many individuals and organisations for which I am grateful.

To begin with, I would like to thank my supervisor, Associate Professor Judith Magarey for her continuous support, guidance and encouragement. My sincere thanks also go to Associate Professor Winnie Chee Siew Swee and Lee Lai Fun, my dietetic supervisors from Malaysia for their dietetic guidance, encouragement and for showing me what diabetes nurse educators should know about diet in diabetes management. A special thanks to Thomas Sullivan, statistician lecturer from the Department of Public Health, University of Adelaide for his invaluable statistical advice and guidance and Maureen Bell, research librarian at the Barr Smith Library for her patience, guidance and assistance in searching for the references.

For reviewing the questionnaires, I am indebted to Eva Kan (Hong Kong), Marg McGill and Gillian Harris (Australia), John Knagg (Singapore), Professor Khalid Khadil, Professor Chan Siew Pheng, Professor Annuar Zaini Md Zain, Lim Chwee Eng, Tay Mui Eng, Gan Pheng Theng, Rogger Ong, Roslina Mohd Jani Teng Yu Yuet (Malaysia) for their invaluable comments and suggestions. I would also like to thank Professor Trisha Dunning (Australia) who not only reviewed the questionnaires but offered constant support, encouragement and is always so generous to share her knowledge in research methodology and diabetes education. A very special thanks to Professor Meng Hee Tan, the brother I always admire, for reviewing the questionnaire and providing insightful comments and suggestions during the proof-reading of this portfolio.

For preparation of this portfolio, I am indebted to Fook and Dr. Jade Gan for their assistance in computer work. Thanks to Phillip Thomas for editing the language used in this portfolio.

To the Ministry of Health, Malaysia, I say thank you for granting me permission to conduct the studies in the government hospitals and two rural health centres. I thank the Director of Health (Melaka State) physicians-in-charge, nursing sisters-in-charge and all the staff at the General Hospital Melaka, Alor Gajah Hospital, Jasin Health Centre and Masjid Tanah Health Centre for their support and cooperation. A very, very special thanks to all the patients with diabetes who have not only cooperated and participated in the studies, but gave me the opportunity to understand what it is like living with diabetes.

I would also like to thank Roche (Malaysia) Sdn Bhd for allowing me to borrow the blood glucose meters and Pharma Forte (Malaysia) Sdn Bhd for lending the Bayer DCA analyser during the second study.

I sincerely thank my employers, Dr. Lee Boon Leong and Dr. Ramesh Kumar at the Damai Medical and Heart Clinic for permitting me to conduct the two pilot studies in the clinic and allowing me time to undertake and complete my research. I also thank Dr. Uma Rani Subramanian, Siti Noaraizam Ghazali, Jessei Lee and Wong Soh Sun for translating the questionnaire and preparing the official letters in Bahasa Malaysia. To all the staff at the nursing department, thank you for your understanding and cooperation during the six years that my study took.

I would like to thank my fellow doctoral candidates especially Emily Ang and Ma'en Zaid Abu-Qamar for their company along this long journey. Thank you Dr. Lee Boon Hua and Clarence Abram for your support, encouragement and belief in myself that I can make it!

To my brothers and sisters, I thank them for their support and encouragement. A very special thanks to my family members, my husband Boon, my children Kwan, Shookie, Fook and Martha for their endless support, encouragement and love in fulfilling my dream.

Last but not least, I would like to thank all the others who have directly or indirectly contributed to this journey.

## DEDICATION

*This Doctoral Portfolio is Dedicated  
to all the People with Diabetes Mellitus  
in Malaysia*
