A GRANT FOR EDUCATION.

The Estimates passed by Parliament last session included an amount of £1,000 in connection with the appointment of a lecturer in economics at the University of Adelaide, and £200 in connection with the Workers’ Educational Association. The Premier (Hon. C. Vaughan) stated on Wednesday that the Government would advance one part of the sum mentioned to provide for the last quarter of the present financial year, viz., March to June. That would enable a start to be made at the earliest possible date. After June next it was expected that the two purposes would be continued regularly in sums of £1,000 and £200 a year.

WORKERS’ EDUCATIONAL ASSOCIATION.

The Minister of Education has granted approval for representatives of the Workers’ Educational Association to enter into negotiations with officials of the Education Department, in order to obtain their services as leaders of study groups, also to make arrangements with the Director of Education for the use of school buildings during the evenings for classes. Mr. Herbert Mrton, M.A., the newly appointed lecturer in economics at the University, and director of tutorial classes, arrived in Adelaide about the middle of March. It will be the work of the general secretary of the association (Mr. E. C. Childs) to organise classes, and the tutor to arrange for instruction which will be governed by a joint committee. To ensure the continuity of buildings in all parts of the State, and the assurance of teaching, will be a great advantage to the association.
