

REPLY, 19.9.18.

LATE LT. SANDERSON E. BRODELL.

The late Lt. E. B. Brodell, R.I.M.S. Res., was killed in action at Duhallow, on the 7th of June, 1918, and died on the 18th of the same month. He was a distinguished soldier, and a man of great ability, who had served with distinction in the South African War, and was well known to many of his fellow officers. He was a fine friend and a great loss to the service.

REPLY, 20.9.18.

THE UNIVERSITY AND ACTIVE SERVICE.

I am glad to hear that Mr. R. C. G. Richardson, of the University of Sydney, has been appointed as inspector of the University of Melbourne. He is a member of the University of Sydney, and has been associated with it for many years. He is a man of great ability, and will do much good work in his new position.

I have also heard that Mr. R. C. G. Richardson, of the University of Sydney, has been appointed as inspector of the University of Melbourne. He is a member of the University of Sydney, and has been associated with it for many years. He is a man of great ability, and will do much good work in his new position.

The second aid, if the bill coordinating the institute's departments be approved, is the establishment of the Office of the President of the National Academy of Sciences and the establishment of a University, which has been approved by the National Academy of Sciences and the University of California. The new institution will be called the University of the Pacific, and will be modeled on the University of California, with the same facilities for research and instruction in the sciences and arts. The University will be located in the city of San Francisco, and will be under the control of the National Academy of Sciences.

The third aid, if the bill coordinating the institute's departments be approved, is the establishment of the Office of the President of the National Academy of Sciences and the establishment of a University, which has been approved by the National Academy of Sciences and the University of California. The new institution will be called the University of the Pacific, and will be modeled on the University of California, with the same facilities for research and instruction in the sciences and arts. The University will be located in the city of San Francisco, and will be under the control of the National Academy of Sciences.

The fourth aid, if the bill coordinating the institute's departments be approved, is the establishment of the Office of the President of the National Academy of Sciences and the establishment of a University, which has been approved by the National Academy of Sciences and the University of California. The new institution will be called the University of the Pacific, and will be modeled on the University of California, with the same facilities for research and instruction in the sciences and arts. The University will be located in the city of San Francisco, and will be under the control of the National Academy of Sciences.

The fifth aid, if the bill coordinating the institute's departments be approved, is the establishment of the Office of the President of the National Academy of Sciences and the establishment of a University, which has been approved by the National Academy of Sciences and the University of California. The new institution will be called the University of the Pacific, and will be modeled on the University of California, with the same facilities for research and instruction in the sciences and arts. The University will be located in the city of San Francisco, and will be under the control of the National Academy of Sciences.

The sixth aid, if the bill coordinating the institute's departments be approved, is the establishment of the Office of the President of the National Academy of Sciences and the establishment of a University, which has been approved by the National Academy of Sciences and the University of California. The new institution will be called the University of the Pacific, and will be modeled on the University of California, with the same facilities for research and instruction in the sciences and arts. The University will be located in the city of San Francisco, and will be under the control of the National Academy of Sciences.

The seventh aid, if the bill coordinating the institute's departments be approved, is the establishment of the Office of the President of the National Academy of Sciences and the establishment of a University, which has been approved by the National Academy of Sciences and the University of California. The new institution will be called the University of the Pacific, and will be modeled on the University of California, with the same facilities for research and instruction in the sciences and arts. The University will be located in the city of San Francisco, and will be under the control of the National Academy of Sciences.

The eighth aid, if the bill coordinating the institute's departments be approved, is the establishment of the Office of the President of the National Academy of Sciences and the establishment of a University, which has been approved by the National Academy of Sciences and the University of California. The new institution will be called the University of the Pacific, and will be modeled on the University of California, with the same facilities for research and instruction in the sciences and arts. The University will be located in the city of San Francisco, and will be under the control of the National Academy of Sciences.

The ninth aid, if the bill coordinating the institute's departments be approved, is the establishment of the Office of the President of the National Academy of Sciences and the establishment of a University, which has been approved by the National Academy of Sciences and the University of California. The new institution will be called the University of the Pacific, and will be modeled on the University of California, with the same facilities for research and instruction in the sciences and arts. The University will be located in the city of San Francisco, and will be under the control of the National Academy of Sciences.

The tenth aid, if the bill coordinating the institute's departments be approved, is the establishment of the Office of the President of the National Academy of Sciences and the establishment of a University, which has been approved by the National Academy of Sciences and the University of California. The new institution will be called the University of the Pacific, and will be modeled on the University of California, with the same facilities for research and instruction in the sciences and arts. The University will be located in the city of San Francisco, and will be under the control of the National Academy of Sciences.
