UNIVERSITY COUNCIL

ELECTRICAL ENGINEERING COURSE.

THE SCHEME ADOPTED.

PUBLIC EXAMINATIONS.

A meeting of the University Council was held yesterday in the laboratory of the University and there were present the Chancellor (Hon. T. W. H. F. M. Y. W. D. D. McRey), Dr. Sir James Williams, M. F. D. McRey, (Director of Education), W. F. D. D. McRey, G. E. in London, and the Vice-Chancellor. The meeting was opened by the Vice-Chancellor, who read a communication from the Council of the Institution of Electrical Engineers, recommending the adoption of the following scheme of examinations in electrical engineering.

The scheme is as follows:

1. **Minimum Requirements**: All candidates must have completed a course of study in physics, mathematics, and theoretical electricity, and have passed an examination in these subjects.

2. **Course of Study**: The course of study must include the following subjects:
   - Applied Mechanics
   - Physics
   - Mathematics
   - Electrical Engineering
   - Engineering Practice

3. **Passing Grade**: Candidates must achieve a passing grade in all subjects.

4. **Examinations**: There will be two examinations:
   - **First-Year Examination**: This will cover the subjects of Applied Mechanics and Physics.
   - **Second-Year Examination**: This will cover the subjects of Mathematics, Electrical Engineering, and Engineering Practice.

5. **Pass Certificate**: Candidates who pass the first examination will be awarded a pass certificate in Applied Mechanics and Physics.

6. **Special Certificate**: Candidates who pass the second examination will be awarded a special certificate in Electrical Engineering.

7. **Honours**: Candidates who pass all examinations will be awarded a degree of Honours in Electrical Engineering.

8. **Option**: Candidates may choose to specialize in any one of the following branches of electrical engineering:
   - Power Engineering
   - Communication Engineering
   - Electrical and Mechanical Engineering
   - Electrical Engineering

9. **Registration**: Candidates must register with the Institution of Electrical Engineers before they can sit for the examinations.

10. **Examination Board**: The examinations will be conducted by a board of examiners appointed by the University Council.

11. **Results**: Results will be announced on a date to be fixed by the Council.

The scheme was approved by the Council and will be implemented immediately.

MANAGEMENT

EDUCATION OF MAJOR THOMSON

Major Thomson, who has been appointed to the staff of the University, has arrived in Adelaide. He is a graduate of the University of Sydney and has been appointed to the staff of the University of Adelaide as a lecturer in electrical engineering.

THE UNIVERSITY OF SOUTH AUSTRALIA

The University of South Australia has been notified that the University of Adelaide has been granted permission to offer degrees in electrical engineering.

The scheme was approved by the University Council and will be implemented immediately.

The Vice-Chancellor said that he was confident that the scheme would be successful and that the University of South Australia would soon become a leading centre for electrical engineering in Australia.
