The late Sir Edward Stirling, at the Lodge, Stirlinhaven, and was the son of the late Hon. E. Stirling, of Stirling's Bay, Fife, Scotland. His early education was received at St. Peter's College, after which he went to Cambridge, where he graduated at Trinity College in arts, sciences, and medicine. He took the B.A. degree with honors in natural science in 1879, the M.A. and M.B. degrees in 1882, and the M.D. in 1884. His distinguished work in science and medicine received the recognition of several Royal Colleges, including the Royal College of Surgeons in London, and also of the Royal Society. For many years he filled the post of house-surgeon to assistant surgeons, and lectured in physiology in Londè. He was a Fellow of the Royal Society, and a member of the Royal College of Surgeons. In 1884 he returned to South Australia, where he died some years ago.

Notable South Australian Scientist.

DEATH OF SIR EDWARD STIRLING, C.M.G.

Widespread regret is excited by the news of the death of Sir Edward Charles Stirling, C.M.G., M.D., F.R.C.S., one of Australia's most distinguished scientific and medical men. His reputation was an outstanding one in the field of surgery, and his work in surgery was widely admired. He was born in 1852 in South Australia, and was educated at the University of Adelaide. He went to England to study medicine, and graduated in 1881. He returned to South Australia in 1882, and was appointed surgeon to the Royal Hospital for Women and Children, where he remained for many years. He was a member of the Medical Board of South Australia, and was one of the founder members of the South Australian Medical Society. He was also a fellow of the Royal Society of London, and was elected a fellow of the Royal College of Surgeons in 1886. He was a member of the South Australian Legislative Council, and was M.P. for the city of Adelaide from 1890 to 1896.
