UNIVERSITY APPOINTMENTS.

DIRECTOR OF CONSERVATORY AND PROFESSOR OF MATHEMATICS.

DR. HAROLD DAVIES AND DR. J. R. WILSON.

Rumors were prevalent in the city on Saturday morning that the Council of the Adelaide university had appointed Dr. Harold Davies to be Director of the Conservatory of Music, and Dr. J. R. Wilson to be Professor of Mathematics. No confirmation was obtainable in official quarters.

The new Director of the Conservatorium, a native of a musical family, was born in Vienna. He was originally intended for an architect, but on coming to Australia, when 19 years of age, he decided

University appointments.

At a meeting of the University Council on Friday last it was decided to authorize the Advertiser to offer the appointment of Professor and Director of the Elder Conservatorium to Dr. Harold Davies, and to add his name to the list of candidates for the appointment of late Mr. J. R. Wilson, who was also resolved to divide the chair of pure and applied mathematics, and accept of the appointment without further consideration.

On March 1, 1919.

ADVENTINE 29.1.19.

University appointments.

A meeting of the University council was held on Friday last. There were present—The Chancellor (Sir George Hurd, M.A., M.D., LL.D., F.R.C.S.), Sir Edward Stirling, M.P., F.R.S., Mr. W. B. Boyce, B.Sc., Professor Busch, B.A., Dr. W. F. Buss, M.A., Mr. W. H. J. Leckler, K.C., Mr. F. B. Brown, M.A., Mr. W. G. P. Goodman, and Dr. Helen Mckcna, M.B., F.R.C.S. The Chancellor welcomed Mr. Goodman, Leave of absence was granted to Mr. Grant for the coming session. It was decided to add another story on the present medical board, and to call for tenders immediately.

On January 29, 1919.

AN ENERGETIC SCIENTIST.

Professor Grant for America.

"I feel that it is very important that a teacher of science should occasionally vacate his routine work in order to get into the field of actual application by doing some scientific work in another country. I also feel the necessity of having shoulders abroad with me in other countries." Such were the sound remarks made by Professor Grant, the Professor of Physics at the Adelaide University, to a representative of the Register on Tuesday. They were made in the presence of a large audience, the learned scientist having been granted leave of absence for the coming University season.
