THE UNIVERSITY.

Interesting Notes.

To the Editor.

Sir,—We, the undersigned, desire to draw attention to several statements in the University Regulations for 1921. The Regulations for the University of Australia for March 19, which was quoted in your issue of Tuesday, may be regarded as a significant development of this character. The remarks made by the editor of the Medical Journal of Australia concerning this matter are as follows: "The University of Australia has been founded on the principles of education and research, and this policy is being carried out in an exemplary manner." The editor also stated that the University of Australia has been founded on the principles of education and research, and this policy is being carried out in an exemplary manner.

The new University of Australia is to be located on the slopes of Mount Lofty. The University will be a co-educational institution, with a staff of 100, and will offer degrees in arts, science, medicine, and engineering. The University will be governed by a board of governors, consisting of representatives of the government of South Australia, the University of Adelaide, and the University of Sydney.

The new University is expected to cost about £1,000,000, and is to be financed by the government of South Australia, and by contributions from the students. The University is to be completed in about three years.

The new University is expected to attract students from all parts of the world, and to become one of the leading institutions of its kind in the southern hemisphere.

GEOLOGICAL RESEARCH.

Expedition to Central Australia.

Twenty-five years ago, the late Professor T. and Professor B. Stafford, when on the Horn Expedition through Central Australia, noticed in the Bronze Age, near Courtenay Point, a number of glaciated pebbles. Much interest has been evinced in scientific circles in relation to these pebbles, and investigations their occurrence and geological age have been encouraged by the University of the Australasian Association for the Advancement of Science. Since then, the interest manifested a small party will shortly explore the country where these pebbles were found.

The expedition will comprise Professors T. and B. Stafford, of Adelaide, and Professor C. White, the well-known botanist of the University.

INTER-VARSITY TENNIS.

MELBOURNE DEFEATED ADELAIDE.

The contents of the Melbourne team for the Nalbourn Cup were: Adelaide by 19 games, 20 sets, 10 games to 3 rubbers, 10 sets.

Melbourne will play against Sydney on Monday.
