In a modified form a similar plan was in operation last year, but had not then been adopted on a solid foundation, and certain appointments of teachers and scholars had been made in connection with the work. There are six preparatory schools, namely, one for primary boys; two for primary girls, one for secondary boys and two for secondary girls. These schools are situated in the centre of the town, and the work is being done in the most efficient manner. The work is being done by the Board of Education.

A School of Music.

It would seem that even though this is only a small town, there is a large amount of musical life in it. Professor Davis, who is the Director of Music, has just been appointed to the post of Director of Music at the University of Chicago. The School of Music is one of the largest in the country, with well over 500 students. It is well equipped with studios, concert halls, and rehearsal rooms. The faculty includes many prominent musicians, and the curriculum is designed to prepare students for careers in music, whether as performers, composers, or teachers. The School of Music also offers courses in music theory, composition, and performance for non-music majors.

A School of Art.

In addition to the School of Music, the University of Chicago also offers a School of Art, which is one of the largest in the country. The School of Art is well known for its programs in painting, sculpture, and ceramics. The faculty includes many prominent artists, and the curriculum is designed to prepare students for careers in the arts, whether as artists, art historians, or curators. The School of Art also offers courses in art history, art appreciation, and design for non-art majors.

A School of Architecture.

The University of Chicago also offers a School of Architecture, which is one of the largest in the country. The School of Architecture is well known for its programs in architectural design, urban planning, and historic preservation. The faculty includes many prominent architects, and the curriculum is designed to prepare students for careers in architecture, whether as architects, planners, or historians. The School of Architecture also offers courses in architectural history, urban design, and conservation for non-architecture majors.
