Agricultural Education.

The committee referred to the University of New South Wales, which is charged with the conduct of the Agricultural education, has appointed the following committee to consider the future of the Agricultural education at the University:

Endowment by Subscription.

The University recently received an endowment of £500,000, which will enable it to carry on its work of research and education. The money was presented by Mr. and Mrs. John B. Biddle, who have been long-time supporters of the University. The endowment will be used to support the work of the University in the fields of agriculture, engineering, and medicine. The University is grateful for the generosity of Mr. and Mrs. Biddle and looks forward to using the endowment to further its mission of education and research.
