EIDER CONSERVATORY.

From the University and Commerical Correspondent.

In the course of my annual effort to make the conservatory of music one of the leading institutions of the city, I have been able to secure the valuable assistance of Dr. F. B. Tischler, professor of music at the University of Berlin. He has received his training in that city, and has also contributed substantially to the advancement of music in this country. The course of study will be divided into four main parts: piano playing, violin playing, singing, and theory.

CLASICAL ASSOCIATION.

The Classical Association, under the direction of Dr. P. A. S. Tischler, will meet on Thursday evenings at 8 o'clock. The program will consist of concerts and lectures by eminent musicians. The association is open to all members of the University and the public.

The lecture was well attended and the subject was well received. Professor Strong is one of the most brilliant and interesting lecturers of the University.
