UNIVERSITY LECTURES.

RELATIVITY AND GRAVITATION.

Professor J. R. Wilson on June 8 gave the annual Balfour Lecture at the University of Adelaide on "Relativity and the Modern Theory of Gravitation". The lecture was well attended, and the room was filled to capacity. Professor Wilson began by discussing the implications of Einstein's theory of relativity, and then went on to explain the principles of gravitation in the modern theory. He also discussed the experimental evidence supporting the theory, and the various predictions that it makes about the behavior of objects under gravity.

MUSIC EXAMINATIONS.

From H. E. Fuller, local secretary, Trinity College, London.—Mr. E. Howard has passed the Trinity College University Examination Board's examinations for the Bachelor of Arts degree. Mr. Howard is the first person to achieve this distinction in the Adelaide area. He was awarded the degree on July 2nd, 1922.

ELDER CONSECUTIVE CONCERT.

SUCCESSFUL ORCHESTRAL CONCERT.

Judging by the performance of the Elder Conservatorium String Orchestra, at a reception given by the Elder Conservatorium President, Mr. F. W. Sanders, B.A., on Sunday evening, the new school year will open with an event that will be frequently heard of during the coming season. Under the conductorship of Mr. H. A. Sanders, B.A., the orchestra has made a notable contribution to the musical life of the community. The concert was well attended, and the audience was enthusiastic in its response to the performances. The program included works by Beethoven, Mozart, and Schubert, and was conducted with great skill and precision. The orchestra's performance was widely acclaimed, and it is expected that they will continue to give many more successful concerts throughout the year.
