ECONOMICS AT THE UNIVERSITY.

From J. Golovry, A.C.A. (A former student of the Faculty of Economics at the University.

The economic structure of the University was at one time a matter of great concern to the students of the Faculty of Economics. It was feared that the economic system of the University would be undermined by the economic changes occurring in the country. However, the students were reassured by the support of the University administration, which was committed to maintaining the economic stability of the University.

SOCIALISM AT THE UNIVERSITY.

From A. T. Saunders—It is common knowledge that the University is a socialistic environment, which is 10 per cent. Jewish, has spent and is spending huge sums in propaganda work, and that all branches in the University, from the Rosh Pina to the Women's College, are either known or suspected as being sympathetic to the Jewish-Russian-Soviet organisation. Of course, they are Bolsheviks, but they are only in a number of people, and they are not well known to the public. London Review of Reviews, 15/27, No. 2, 1947, page 282, line 47: "The Jews in the University, as well as in all other institutions in London, are well known to the public."
