LAND EXPLORATION.

A FASCINATING STORY.

The Talbot Scholarship, in connection with the University of Adelaide, was awarded to the Chauncey, Sir George Talbot, for excellence in science and mathematics. The scholarship was endowed by the late Mr. and Mrs. Talbot, and the recipient of the scholarship is the son of the late Mr. Talbot, who was a well-known and respected citizen of Adelaide.

In the next few years, Talbot made several expeditions into the interior, and his discoveries and observations were of great value to the early settlers of South Australia. He was particularly interested in the exploration of the Macdonald Gap and the Murray River, and his reports were published in the South Australian Museum's journal.

Talbot's work was praised by many, and his discoveries and observations were of great value to the early settlers of South Australia. He was particularly interested in the exploration of the Macdonald Gap and the Murray River, and his reports were published in the South Australian Museum's journal.

The Talbot Scholarship is still awarded today, and it is one of the most prestigious scholarships in South Australia. It is a testament to the importance of exploration and discovery, and it continues to inspire young people to pursue careers in science and mathematics.

VETERINARY SCIENCE.

BILL IN NEW SOUTH WALES.

It is the intention of the Minister of Agriculture, (Mr. Gough), during the next session of Parliament, to introduce a Bill to regulate the professions of veterinary surgeons and veterinary students. The Bill will provide for the registration of veterinary surgeons and students, and for the establishment of a veterinary college in New South Wales.

The provisions of the Bill will ensure that those engaged in the veterinary profession are subject to proper regulation and control. This will help to maintain high standards of veterinary practice and ensure the welfare of animals in New South Wales.

The Bill will also provide for the establishment of a veterinary college, which will provide education and training for veterinary students. The college will be an important step in the development of a professional veterinary service in New South Wales.

ELDER CONSERVATORIUM.

FINE CHAMBER MUSIC CONCERT.

There was a large audience at the Elder Hall on Monday evening, when a chamber music recital of special interest was given. The programme included works by Schubert, Beethoven, and Brahms, and was performed by a group of highly skilled musicians.

The recital was well-received by the audience, who were impressed by the musicians' skill and the quality of the performance. The evening concluded with an appreciation, in which the conductor, Mr. Elder, expressed his gratitude for the audience's support and encouragement.

The Elder Conservatorium is one of the oldest and most prestigious music institutions in Australia, and it has a long history of providing high-quality music education and performances.

At a public meeting arranged for the evening by the Social Insecurity Committee, Mr. Joseph Voss, Prof. D. B. Robertson, and Dr. P. H. Hume will discuss the need for an insurance scheme for the betterment of mental efficiency. It is the opening phase of a battle long overdue. The problem of mental illness has been thinly grappled with in the past, and in Australia. As the committee has pointed out, there are no accurate statistics on the extent of mental illness; and the lack of organization and improvement of the Home of Rest being thoroughly grasped with in the settlement, the public has pointed out, there are no accurate statistics on the extent of mental illness; and the lack of organization and improvement of the Home of Rest being thoroughly grasped with in the settlement, the public has
