THE DENTAL HOSPITAL.
OPENING OF THE NEW BUILDING.

On Tuesday the building recently completed as a dental hospital was opened for the use of the public. During the building's construction, a request from the Dental Board for a more suitable and spacious facility was made. The new hospital has been designed to meet the growing needs of the dental community and will provide a more comfortable environment for both patients and staff.

MUSICAL EDUCATION.
From EDWARD HOWARD, Arts Serv.

In view of the interest in and the increasing demand for musical education, a music school is proposed to be established. The school will offer training in various instruments, including the piano, violin, and flute. It is hoped that the school will provide an opportunity for students to develop their musical talents and pursue a career in the field of music.

THE UNIVERSITY LAW STUDENTS SOCIETY.

On Wednesday evening, Professor Colby, a leading legal scholar, delivered a lecture to a large number of students at the University Law School. The lecture focused on the role of law in society and the importance of ethical considerations in legal practice. The students were engaged and active, asking many insightful questions throughout the presentation.

SOUTH AUSTRALIA AND THE ECLIPSE.

THE EINSTEIN THEOREM TEST.

If it were possible to split a human hair into 300 separate parts and the thickness of one strip would indicate the accuracy with which an astronomer perceives the stars, then he might be Comptometer and the thickness of one strip would indicate the accuracy with which an astronomer perceives the stars.

The Adelaide Observatory, unfortunately, is not equipped with apparatus delicate enough to make measurements, and the Einstein photographs were taken with a more powerful apparatus. The thickness of the solar eclipse last September has been less than the range of the apparatus. The stars, which are very much, are the range of the apparatus.

THE EDUCATION SOCIETY.

The Education Society held a meeting on Thursday evening, attended by a large number of students and faculty members. The discussion centered around the role of education in society and the importance of providing quality education to all students. The society also discussed potential initiatives to improve access to education for marginalized groups.

MR. KEITH WARD.

Returns from Central Australia.

After a three-month visit to Central Australia, Mr. Ward, a geologist, returned to Adelaide on Thursday.

He had conducted research on the mineral deposits of the region. His findings indicate that there are significant mineral resources in the area, which could lead to the development of new industries and economic growth.

The Government of South Australia has expressed interest in these findings and is considering ways to support further research and exploration activities in the region.
